No. 742M., the 14th May 1909.—The following drafts of rules which it is proposed to make under sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), are published for the information of persons likely to be affected thereby.

The drafts will be taken into consideration on the 15th July, 1909, and any objections or suggestions received by the undersigned before that date will be duly considered.

Matter which is not already contained in the existing rules is printed in the draft rules in antique type, and dotted lines are inserted to indicate the places where matter contained in the existing rules is omitted from the draft rules.

DRAFT I.

In exercise of the power conferred by sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Lieutenant-Governor is pleased to make the following rules as to the construction, maintenance and regulation of privies and urinals and appurtenances thereof, and to direct that they be inserted in Schedule XVI to that Act in the places hereinafter indicated.

To be substituted for Rule 1 :—

Regulation of site of service privies.

1. (*1*) No service privy exceeding eleven feet in height shall be placed in the space required by this Act to be left at the back of a building. . . . .

(*2*) No service privy situated in, or adjacent to, a building shall be placed at a distance of less than six feet from—

(*i*) ... any ..... public building, or

(*ii*) ... any ..... building which is, or is likely to be, used as a dwelling-place or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business.

(3) No service privy shall be placed in a masonry building situated in a street which has been sewered and has an adequate unfiltered water-supply.

(4) Every service privy shall be detached from the inhabited portion of a building.

To be added to rule 6 :—

(3) The floor of every connected privy in which the opening of the pan is placed on the level of the floor shall have a fall or inclination towards the pan of at least half an inch to the foot.

To be substituted for rules 9 to 11 :—

Ventilation of privies, water-closets and urinals in or adjacent to, buildings.

9. Every privy, water-closet and urinal situated in, or adjacent to, a building must have an opening, of not less than three square feet in area, in one of the walls of the privy, water-closet or urinal, as near the top of the wall as may be practicable and communicating directly with the open air.

..... service privies to be ..... provided with a moveable receptacle for sewage.

10. (*1*) Every service privy must be provided with a moveable receptacle for sewage.

(*2*) The following provisions shall have effect with regard to.....such privies and receptacles, that is to say,—

(*a*) the space beneath the platform of the privy must be of such dimensions as to admit of a moveable receptacle for sewage, of a capacity not exceeding two cubic feet, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit, otherwise than in such receptacle, of any sewage falling or thrown through the aperture of the platform;

(*b*) the privy must be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein, and removing therefrom, a proper receptacle for sewage;

(*c*) the said receptacle must be water-tight, and must be made of metal, well-tarred earthenware or glazed stoneware, and must be of such construction and shape as will admit of its being easily removed and emptied of its contents;

(*d*) the door for the insertion and removal of the receptacle must be made so as to completely cover the aperture.

Masonry wall for water-closets, connected privies and urinals.

11. Every water-closet, connected privy and urinal situated in a building must be separated by a masonry wall from kitchens, habitable rooms and rooms in which any person is, or is intended to be, employed in any manufacture, trade or business.

To be added to rule 12:—

(*3*) Every urinal must be provided with adequate flushing arrangements to the satisfaction of the Chairman.

To be inserted after rule 12:—

Pan for connected privies and water-closets.

12A. Every connected privy and water-closet must be provided with a pan of such form and dimensions as may be approved by the Chairman.

To be substituted for rule 14:—

Prohibition of containers and D traps.

14. No "container" or other similar fitting shall be placed under the pan of a connected privy....., water-closet or urinal; and no trap of the kind known as a "D trap" shall be used with any such privy ....., closet or urinal.

DRAFT II.

In exercise of the power conferred by sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Lieutenant-Governor is pleased to make the following rules to regulate the use of sites for the erection of buildings, and the erection and re erection of buildings, and to direct that they be inserted in Schedule XVII to that Act in the places hereinafter indicated.

To be substituted for Rule 1:—

Conditions as to use of building sites.

1. No piece of land shall be used as a site for the erection of a building—

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the General Committee may consider practicable; and

(*2*) if the site is within thirty feet of a tank, unless the owner satisfies the Engineer that he will take such order as will prevent any risk of the domestic drainage of the building passing into the tank; and

(*3*) if the building to be erected is a public building, a dwelling-house or a hut,—

(*a*) unless the site is certified by the Engineer to be dry and well drained or to be capable of being well drained, and

(*b*) if the site is a filled-up tank, or has been filled up with or used for depositing rubbish, offensive matter or sewage, ... unless the Chairman has examined the site and granted a certificate to the effect that it is, from a sanitary and engineering point of view, fit to be built upon.

Certificate as to correctness of plans of a previously existing building.

1A. Any person who intends to erect any building upon a site on which a building has been previously erected, whether before or after the commencement of this Act, may, before commencing to erect his intended building, cause to be prepared plans showing the extent of the previously existing building in its several parts (or, in the event of such building having been taken down before the commencement of this Act, or having been accidentally destroyed, the best plans available under all the circumstances of the case), and may cause such plans to be submitted to the Chairman, who shall (if reasonably satisfied with the evidence of their accuracy) certify the same under his hand; and such certificate shall be taken to be conclusive evidence of the correctness of the plans.

To be substituted for Rule 2:—

Height.

2. (*1*) If a building is situated at the side of a street, no portion of the building, except open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary lines drawn across the street at an angle of forty-five degrees with the plane of the ground, such lines being drawn from the street alignment on the side of the street which is the more remote from the building in question, ... from a height of two feet above the centre of the street:

Provided that, where the said street is joined at an angle by another street facing the building, the junction of the two streets shall be deemed to be the street alignment for the purposes of this sub-rule.

Explanation.—If a building be placed at the edge of the street, its height must not exceed the average width of the street facing the site; but, if the building or one or more of its storeys be set back, the height of the building may be increased, subject to the condition that no portion of the building, after the height is increased, intersects any of the aforesaid lines.

(*2*) In the case of any building which is re-erected in a street in existence at the commencement of this Act which is less than twenty-five feet wide, the angle at which the

lines referred to in sub-rule (*1*) are to be drawn shall be fifty-six-and-a-half degrees instead of forty-five degrees :

Provided that nothing contained in this sub-rule shall authorise the re-erection of any building so as to make it higher than any building which at the commencement of this Act is standing on the same site.

(*3*) Notwithstanding anything contained in sub-rule (*1*) or sub-rule (*2*), the Corporation may, by order published in the Calcutta Gazette, declare that, in any street in existence at the commencement of this Act which is specified in the order, the erection of two-storeyed buildings not exceeding twenty-eight feet in height, excluding two feet for the plinth and excluding open or balustraded parapets not more than four feet high, will be permitted without complying with the requirements of these sub-rules.

(*4*) If a building is situated on a corner plot, so as to abut upon more than one street, the height of the building shall be regulated by the wider of such streets so far as it will abut or abuts upon such wider street, and also so far as it will abut or abuts upon the narrower of such streets to a distance of [*forty*] fifty-five feet from the wider street :

Provided that, if the narrower street does not exceed eight feet in width, the height of the building shall be regulated by the wider street, so far as it will abut orabuts upon the narrower street.

(*5*) Notwithstanding anything contained in sub-rule (*1*), (*2*) or (*4*),—

(*a*) a building of not more than one storey and not exceeding fourteen feet in height above the centre of the street, and

(*b*) if the owner, by a free gift of a portion of his land to the Corporation, makes the street not less than twelve feet wide in front of his site, then a two-storeyed building not more than twenty-eight feet high,

may be erected without complying with the requirements of those sub-rules.

Rule 6 is hereby cancelled.

To be substituted for rule 8 :—

8. The plinth of a masonry building must be at least two feet above the level of the centre of the nearest street : Plinth.

Provided that the plinth of stables and cow-sheds need not be more than one foot above such level.

To be substituted for rule 10 :—

10. The outer walls of a masonry building must be constructed of brick or some..... similar hard and incombustible substance. Outer walls.

To be substituted for rule 12(1) :—

12. (*1*) Every wall of a masonry building must have a damp-proof course at..... the level of the ground-floor.

To be substituted for rules 17 to 20 :—

17. The total area covered by all the buildings (including verandahs) on any site used for a dwelling-house shall not exceed two-thirds, or, in localities where the erection of only detached buildings is allowed, one-third, of the total area of the site. Proportion of site for dwelling-house which may be built upon.

18. In localities where the erection of only detached buildings is allowed,— . . Dwelling-houses and out-offices, in localities where the erection of only detached buildings is allowed.

. . . . . .

(*a*) the dwelling-house may be placed in any part of the site, but not so as to extend beyond any building line prescribed under section 356 ; and

. . . . . .

(*b*) ....servants' houses, stables and other out-offices within the area of the site ..... shall not exceed fifteen feet in height or twenty feet in depth, and shall not be placed on more than two sides of the dwelling-house or within twenty-four feet of the dwelling-house. . . . . .

20. Every room in a domestic building which is intended to be used as an inhabited room— Size and ventilation of inhabited rooms.

(*a*) must be in every part not less than ten feet in height, measured from the floor to the under-side of the beam on which the roof rests;

(*b*) must have a clear superficial area of not less than eighty square feet; and

(*c*) must be provided, for purposes of ventilation, with doors or windows opening directly into the external air, or into a verandah, and having an aggregate opening of not less than . . . . one-fourth of the superficial area of that side or one of those sides of the room which faces or face an open space.

Floor of inhabited room over stable, cattle-shed or cow-house.

20A. Every room in a domestic building which is intended to be used as an inhabited room, and which is constructed over a stable, cattle-shed or cow-house, must be separated from the stable, cattle-shed or cow-house by a floor of concrete or other impermeable material.

Ventilation of staircase.

20B. In every domestic building constructed or adapted to be occupied in flats, the principal common staircase must be adequately ventilated upon every storey.

Ground floor.

20C. The ground-floor of every domestic building must be covered throughout, at the height of the plinth, with some impermeable material approved by the Chairman, unless such floor be supported on beams and has a free air space beneath it.

To be substituted for rule 22:—

Open space in rear of building, regulating the rear height.

22. (*1*) Except in localities where the erection of only detached buildings is allowed, there must be in the rear of every domestic building an open space extending along the entire width of the building and belonging exclusively to the building, unless the back of the building abuts on an open square or the like, of not less than twenty feet in width, which is dedicated to public use and is consequently not likely to be built upon :

Provided that, if the back of such building abuts on a public street which is less than twenty feet in width, an owner, on giving up to the Corporation a sufficient portion of his land to make such public street not less than twenty feet wide, may be allowed to build on the very edge of his remaining land, without being required to leave any such open space.

(*2*) The minimum distance across such space from every part of the building to the boundary line . . . . of the land or building immediately opposite such part shall be ten feet :

Provided that, in the case of any building in which there are both an outer and an inner court-yard, a minimum distance of six feet may be permitted.

(*3*) No portion of the building, excluding open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary lines drawn across such space at an angle of sixty-three-and-a-half degrees with the plane of the ground, such lines being drawn from the line limiting the width of such space at the side thereof which is the more remote from the building, at the level of the plinth of the building :

Provided that, in the case of two-storeyed buildings, the angle may be increased from sixty-three and-a-half to sixty-eight degrees.

Explanation.—If the building be placed at the edge of such space, its height must not exceed twice, or, in the case of a two-storeyed building, two and-a-half times, the width of the space; but, if the building or one or more of its storeys be set back, the height of the building may be increased, subject to the condition that no part of the building after the height is increased intersects any of the aforesaid lines

(*4*) For the purposes of this rule, the rear of a building shall be deemed to be that face which is furthest from any street at the side of which the building is situated :

Provided that, where a building is situated at the side of more than one street, the rear of the building shall, unless the Chairman otherwise directs, be deemed to be that face which is furthest from the widest of such streets.

To be substituted for Rules 24 to 27 :—

Open space at sides of building.

24. (*1*) Except in localities where the erection of only detached buildings is allowed, if either side of a domestic building.....does not abut on the adjacent building at the plinth, if such adjacent building be a masonry building, or at the eaves, if it be a hut,

and if such side does not abut on an open square or the like which is at least six feet in width and which is dedicated to public use, and is consequently not likely to be built upon,

there must be between the buildings an open space extending along the entire length of such side and belonging exclusively to the said domestic building.

(*2*) The minimum distance across such space from every part of the said domestic building to the boundary line.....of the land or building immediately opposite such part shall be—

(*a*) six feet, if there is a building next to such boundary line..... , or

(*b*) four feet, if there is an open space.....on the other side of such boundary line.....

Relaxation of rules 22 and 24 in case of a particular site.

24A. (*1*) Rules 22 and 24 shall not have effect in the case of any site where not more than one-third of the total area is occupied by masonry buildings or verandahs.

(*2*) Clauses (*a*) and (*b*), respectively, of rule 18 shall apply to the domestic building and out-offices on any such site, as if such building were a dwelling-house.

25. (*1*) Every interior court-yard and every open space prescribed by rule 22 or rule 24 must be raised at least one foot above the level of the centre of the nearest street, so as to admit of easy drainage into the street. Interior court-yards and outward open spaces to be raised and kept open

(*2*) Every interior court-yard and every such open space must be open to the sky throughout its entire area, and must be kept accessible for the purpose of cleansing; and no structure shall be erected within or above, or so as to project over, the same:

Provided that a one-seated or two-seated connected privy not exceeding forty square feet in floor area, exclusive of walls, may be erected in the open space of ten or more feet left under sub rule (*2*) of rule 22, and that such privy may have as many storeys over it as there are storeys in the house to which it belongs, each of such storeys being connected with the main building by a gangway or bridge of not more than five feet outside width.

25A. All court-yards in a domestic building, and all other open spaces therein not exceeding six feet in width, shall be paved with some impermeable substance and drained to the satisfaction of the Chairman. Paving of court-yards and open spaces.

26. No room other than a bath-room or privy shall be placed over a privy in a domestic building, and no privy shall be placed in a domestic building under any room other than a bath-room or privy. Prohibition of rooms over or under privies.

27. The following further provisions shall have effect in the case of dwelling-houses in bustees, that is to say— Further provisions as to dwelling-houses in bustees.

(*a*) the owner of the land in a bustee on which a dwelling-house is to be erected must, if required by the Chairman, give up all land which may be needed for leaving a space of twenty feet.....along the entire length of the boundary line of any one side of the premises;

(*b*) all land so given up shall vest in the Corporation, and the owner shall receive reasonable compensation therefor.

To be substituted for rules 28 and 29 :—

28. (*1*) In applying sub-rule (*1*) of rule 2 to any building of the warehouse class situated in a locality ..... in which the erection of buildings of the warehouse class is allowed by declaration under sub-clause (*ii*) or sub-clause (*iii*) of clause (*c*) of section 367, the said sub-rule shall be read as if fifty-six-and-a-half degrees were substituted for forty-five degrees. Height of buildings of the warehouse class.

(*2*) Sub-rule (*2*) of rule 2 shall not apply to any such building.

29. The provisions of rules 22, 24 and 25 as to domestic buildings shall have effect in the case of buildings of the warehouse class which are not situated in a locality ..... in which the erection of buildings of the warehouse class is allowed by declaration under sub-clause (*ii*) or sub-clause (*iii*) of clause (*c*) of section 367. Open spaces for buildings of the warehouse class.

29A. The floor of every building of the warehouse class intended to be used for the manufacture or storage of articles for human consumption shall be constructed of some impermeable material approved by the Chairman. Floors of certain buildings of the warehouse class.

To be substituted for rules 30 and 31 :—

30. (*1*) Every application for approval of a site for a masonry building must be written on a printed form (to be supplied by the Chairman free of charge), and must state the position of the site, the number assigned to it in the assessment-book, its dimensions, and such other particulars as may be prescribed by the General Committee. Application for approval of site for erecting or re-erection of masonry building.

(*2*) The site-plan sent with such an application must be drawn to a scale of not less than one-fiftieth of an inch to a foot, must be sent in.....triplicate, and must show—

(*a*) the boundaries of the site and of any contiguous land belonging to the owner thereof;

(*b*) the position of the site in relation to neighbouring streets;

(*c*) the name of the street in which the building is proposed to be situated;

(*d*) the position of the building, and of all other buildings (if any) which the applicant intends to erect upon his contiguous land referred to in clause (*a*), in relation to—

(i) the boundaries of the site,

(ii) all adjacent streets, buildings and premises within a distance of forty feet of the site and of the contiguous land (if any) referred to in clause (*a*), and

(iii) (if there is no street within a distance of forty feet of the site) some existing street or some street projected under section 356 or sanctioned under section 358;

(*e*) the means of access from the street to the building, and to all other buildings (if any) which the applicant intends to erect upon his conti land referred to in clause (*a*);

(*f* the position and approximate height of all other buildings within forty feet of the site;

(*g*) the position, form and dimensions.....of privies, urinals, drains, cess-pools, stables, cattle-sheds, cow-houses, wells and other appurtenances of the building..... ;

(*h*) free passage or way in front of the building;

(*j*) space to be left about the building to secure a free circulation of air, admission of light, and access for scavenging purposes;

(*k*) the width ..... of the street (if any) in front, and of the street (if any) at the rear, of the building; and

(*l*) such other particulars as may be prescribed by the General Committee.

Application to be sent and particulars furnished by person intending to erect or re-erect a masonry building.

31. (*1*) Every application for permission to erect or re-erect a masonry building must be written on a printed form (to be supplied by the Chairman free of charge), and must state the description of the building, its dimensions, and such other particulars as may be prescribed by the General Committee.

(*2*) The plan of the building and the elevations and sections accompanying such an application must be neatly and accurately drawn to a scale of not less than one-eighth of an inch to a foot, and must be sent in ..... triplicate; and the said plan must show—

(*a*) the levels and width of the foundation of the building;

(*b*) the level of the lowest floor of the building; and

(*c*) the level of all court-yards and open spaces in the building or premises, and the plinth-level of buildings, with reference to the level at the centre of the nearest street.

(*3*) The specification accompanying such an application must comprise full information as to the following particulars, namely :—

(i) the materials and method of construction to be used for external walls, party walls, foundations, roofs, floors, fireplaces and chimneys;

(ii) the manner in which roof and house drainage and the surface drainage of land will be disposed of;

(iii) the manner (if any) in which it is proposed to pave the court-yards and open spaces in the building or premises, and the slope to which the surface is to be made in each case;

(iv) the means of access that will be available to scavengers to get to service privies;

(v) the purpose for which it is intended to use the building.....;

(vi) if the building is intended to be used as a dwelling-house for two or more families, or as a place for carrying on any trade or business in which more than twenty people may be employed, or as a place of public resort,—the means of ingress and egress; and

(vii) such other particulars as may be prescribed by the General Committee.

Explanation to clause (v).—If it is intended to use the building or any part thereof for any of the purposes specified in Schedule XVIII, or as a stable, cattle-shed or cow-house, the fact must be expressly stated.

To be substituted for rules 36 to 42 :—

Retention of plan, and submission of fresh application, after refusal to approve site or to permit execution of work.

36. When approval to a site for a masonry building, or permission to erect or re-erect a masonry building, is refused,—

(*a*) the Chairman may retain one copy of the site-plan or the plan of the building, as the case may be, and

(*b*) the applicant may at any time send to the Chairman a fresh application and fresh or modified documents under section 370, framed with the object of meeting the objections for which such approval or permission was refused.

Continuous lines.

37. Huts in a bustee must be built in continuous lines, in accordance with an alignment to be prescribed by the General Committee, after hearing the objections (if any) of the owner of the bustee, and demarcated on the ground.

Bustee streets.

37A. (*1*) In prescribing an alignment under rule 37, in any bustee of which a standard plan has not been approved under this Act or any prior Act or under any rules made under this Act, the General Committee may leave, in such places as they think fit, a space of not more than twenty feet in width for a bustee street.

(*2*) Such bustee streets shall not ordinarily be more than two hundred feet apart, and no hut or portion of a hut shall be built upon or project over them.

38. Where an alignment prescribed under rule 37 does not correspond with the alignment of a street in a bustee, or of a bustee street referred to in rule 37A, ... no hut shall be built so that the distance measured from its eave to such alignment is less than six feet

Distance between eaves and alignment.

39. All bustee streets referred to in rule 37A, and all ..... spaces referred to in rule 38, between a hut and a street alignment, shall remain private property, subject to a right in the municipal authorities to send carts along them or otherwise make use of them for any of the purposes of this Act.

Use of ... bustee streets and of spaces referred to in rule 38.

40. Notwithstanding anything contained in rule 37, huts in a bustee may, with the special sanction of the General Committee, be built so as to form an open court-yard, comprising at least one-fourth of the whole area occupied by the huts and court-yard :

Building of huts in a bustee in court yard formation.

Provided that no portion of such huts shall be built upon a bustee street referred to in rule 37A.

40A. Where huts other than huts in a bustee are built so as to form an open court-yard, the area of the court-yard shall not be less than one-fourth of the area occupied by the huts and court-yard.

Site of huts not in a bustee which form an open court yard.

41. There must be between all huts ....., except in the case of huts referred to in rule 40 or rule 40A, a space of at least three feet, measured from eave to eave.

Space.

42. ..... No hut shall be placed at a greater distance than one hundred feet from the nearest part of a metalled and sewered street, unless there be a municipal or bustee drain at a distance of not more than twenty feet from the site.

Distance of huts from metalled and sewered street.

To be inserted after rule 46 :—

46A. (*1*) The whole of at least one side of every room in a hut must either be an external wall or abut on an open court-yard.

Rooms.

(*2*) Every room in a hut, which is intended to be used as an inhabited room,—

(*a*) shall be provided with a door-way of not less than fifteen square feet in area ;

(*b*) shall have a superficial area of not less than eighty square feet ; and

(*c*) shall have a height of not less than eight feet, measured from the top of the plinth to the junction of the wall with the roof.

46B. (*1*) The court-yard (if any) of a hut shall be so raised that the upper surface shall be one foot above the level of the nearest street or passage, and shall be drained into the nearest drain.

Court-yards.

(*2*) The width of such court-yard shall be not less than ten feet.

To be substituted for the first thirty-four words of sub-rule (3) of rule 47 :—

(*3*) The site-plan sent with such an application must be drawn to a scale of not less than one-eighth of an inch to a foot, must be sent in .. .. triplicate, and must show.

To be substituted for rule 49 :—

49. When permission to erect or re-erect a hut is refused,—

Retention of plan, and submission of fresh application, after refusal of permission to erect or re-erect a hut.

(*a*) the Chairman may retain one copy of the plan, and

(*b*) the applicant may at any time send to the Chairman a fresh application and a fresh or modified plan under section 384, framed with the object of meeting the objections for which such permission was refused.

These certificates are countersigned by the Secretary to the Bengal Chamber of Commerce, and lists of successful candidates are published by that Chamber.

IV. Candidates who have passed the "C" class examination of High School or the Entrance examination are eligible for admission. Others are admitted provided they satisfy the Education Department, by passing a preliminary test-examination of a similar standard, that they have sufficient general education to enable them to derive advantage from the teaching.

V. The Session opens after the long vacation on Monday, the 28th June, when a preliminary test-examination will be held for admitting students who have not passed the "C" Final or Entrance examination. Lecture Courses begin from 1st of July.

G. K. SEN,
Offg. Officer-in-charge.

PATNA COLLEGE, BANKIPORE.

SESSION 1909-1910.

THE Patna College will open on the 5th July 1909. Application should be made before this date and as early as possible. As the numbers which can be admitted are limited, preference will be given to Behari students who have read in the Patna College, or who have passed their University Examinations in the First or Second Divisions, and to Bengali students who have passed in the First Division.

Application will not, except under special circumstances, be received after the 25th July 1909.

Forms of application for admission may be obtained in the College Office.

The office will be open daily during the vacation from 7 A.M. to 10 A.M., except on gazetted holidays.

V. H. JACKSON,
Offg. Principal, Patna College.

Form of Application for Admission.

I DESIRE to join the class of the Patna College and to take up the following subjects*:—

I desire to reside

Every student must reside either—

(1) with parent;

(2) in a College hostel;

(3) with guardian;

(4) in a College mess (if there is not sufficient accommodation in the hostel).

Students who wish to live with guardians must fill in forms provided for the purpose at the time of admission or within one week of taking admission. Any further delay will incur a fine of annas 2 per day. If they are in any difficulty they may apply within that time to the Principal or Professor in charge for advice.

(*To be filled in by students.*)

Name of student:—

Father's name and occupation:—

Father's address or present residence:—

Recognised guardian's name and occupation:—

The place of residence and address of the guardian:—

Date of birth:—

Whether the student has a horoscope; if so, whether the age given agree with it:—

Religion and caste:—

The school or college from which he passed the division in which he passed and the year in which he passed the Entrance or F. A. examination:—

The following combination of subjects may be taken up:—

(1) For the Intermediate Examination in Arts:—

						For Second Year only.	
(*a*)	English, Sanskrit, or, Persian. History. Logic.	(*b*)	English, Sanskrit, or Persian. Mathematics. Logic.	(*c*)	English. History. Logic. Mathematics.	(*d*)	English. Logic. Mathematics. Physics.

(2) For the Intermediate Examination in Science:—

(4) For the B. Sc. Examination:—

Mathematics. Physics. Chemistry.

Before selecting their subjects students are recommended to apply for advice as to the course of study to the Principal or Professor in charge. The number of students admitted to the Science Course will be strictly limited, so that very early application is advisable. In making final admission to these courses, preference will be given to Behari students who pass their examinations in the First or Second Division.

Form of application for recognition of guardian.

Name of student:—

Name and address of guardian:—

Profession of guardian:—

Age of guardian:—

Relationship of guardian to student:—

I desire to appoint the above named gentlemen as guardian to my son for the following reasons:—

Signature of parent.

I UNDERTAKE to act as guardian to the above named student and will hold myself responsible for his physical well-being and good conduct outside of college hours, and for the payment of all sums due from him to the college. I also undertake to furnish such reports and information concerning my ward as may be called for at any time by the Principal of the college.

Signature of guardian.

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of elementary mathematics.

(2) Careful training in survey work.

(3) Drawing, both free-hand and engineering.

(4) Elements of road-making and the construction of simple buildings.

(5) Workshop practice, with hand tools and machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this school, who must be a Bihari by race.

4. The next session will commence on 5th July 1909.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and mathematics.

(2) Standard VII of the Code of European schools.

(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and mathematics (of about the same standard as the Entrance Examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 6th and 7th July, respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their applications must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father with his family have taken up their residence in Bihar.)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

Candidates for Amin class, who have not passed the Middle English or Middle Vernacular examination, will be examined at the school on the 7th July; candidates failing at this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 5th July 1909, unless application for admission is made before 30th June 1909.

10. All candidates for admission to the school should present themselves personally at the school on 5th July.

11. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians whose homes are near enough to enable them to attend the school at the required times. The Principal of the College will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

The Calcutta Gazette.

WEDNESDAY, MAY 19, 1909.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this Part of the "Gazette" cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Sudamdih-Pathardih Link, Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 8 o'clock on Monday, the 7th June 1909, corresponding with the 24th Jaisto 1316 Fusli, at Jharia.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on the 31st May 1909, corresponding to Bengali 17th Jaista 1316.

The purchase will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily-settled district in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions on expiry of each settlement. In the case of an estate situated in a permanently-settled area and yielding an annual rental of less than Re. 1, there should be no condition regarding payment of land revenue.

3rd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

4th.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

5th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, specified in the conditions of sale below, to the undermentioned estate, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on the 21st June 1909, corresponding with 7th Ashar 1316 B.S.

(Bengali, Fusli, or Umli, according to the era current in the district.)

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily-settled districts in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions on expiry of each settlement. In the case of an estate, situated in a permanently-settled area and yielding an annual rental of less than Re 1, there should be no condition regarding payment of land revenue.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.
445	Raghunathpur, pargana Halishahar ...	53·26	Rs A. P. 65 9 0	The Government revenue will be reduced by 20 per cent.

Advertisement of Sale.

NOTICE is hereby given that the mokarri right of Government, as specified in the conditions of sale below to the undermentioned tenures situate in the district of Bhagalpur, will be put up to sale at the Bhagalpur Collectorate on the 21st June 1909, corresponding to 17th Asarh 13 6 Fusli.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The tenures to be sold in one lot to the highest bidder above the upset price amounting to 15 years purchase of their net income, *i.e*, annual jama minus mokarri rent of Rs. 21-3-1. The purchaser of the tenures will be considered as the mokarridar of the tenures, and the entire mokarri right of Government in these tenures will be transferred to him subject to the payment of rent of Rs. 21-3-1 per annum to the superior landlord.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the tenures to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF THE YEAR 1908-09.

No. 2474B., dated Calcutta, the 10th May 1909.

From—SRIGOPAL BHATTACHARJI, ESQ., M.A., B L., Secretary to the Board of Revenue, L. P., Misc. Revenue Dept.,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the following report on the state of the salt market for the fourth quarter of the year 1908-09, comprising the months of January, February and March 1909.

Member in charge:
THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

2. The quantity of salt of every description cleared during the quarter amounted to 28,12,147 maunds, as compared with 26,60,570 maunds in the previous quarter, and 26,04,712 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 25,85,126 as against Rs. 24,05,311 in the previous quarter, and Rs. 24,06,420 in the corresponding quarter of the previous year.

3. The subjoined Table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years :—

The stocks remaining in the golas at the close of the quarter were considerably greater than those of the preceding four quarters.

5. The figures showing the despatches of salt from Calcutta by different routes during the quarter under report will be published as usual in the *Calcutta Gazette* by the Director-General of Commercial Intelligence when they are available.

6. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar amounted to 2,197 maunds, as against 1,325 maunds in the previous quarter and 810 maunds in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of Bengal during the quarter amounted to 11,477 maunds,* as compared with 2,773 maunds in the previous quarter, and 8,332 maunds in the corresponding quarter of the previous year.

* Includes 10 maunds of sitta.

8. The shipments of Liverpool salt during the quarter for the port of Calcutta according to the published market reports amounted to 43,200 tons. It is reported that the vessels noted in the margin are on the sea bound for Calcutta with cargoes of salt from Hamburg. The quantity given against each ship is approximate only.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR APRIL 1909.

Character of the Rainfall.—Rain throughout the Province was greatly in excess of the normal in all districts. The fall varied from 4·20 to 8·32 inches in Lower Bengal, from 1·50 to 4·79 inches in Bihar, from 3·45 to 6 59 inches in Orissa, and from 1·91 to 5·48 inches in Chota Nagpur. The usual rainfall table is appended.

II.—*Progress of Agricultural operations.*—The rain facilitated agricultural operations. Preparation of lands for the sowing of autumn crops was in full sowing, and sowings of jute and other *bhadoi* crops were commenced. Planting of sugarcane continued. Harvesting of *boro* paddy was begun in Orissa and Midnapore.

III.—*State of standing crops.*—The condition of the newly-planted sugarcane crop and vegetables was good, and the prospects of all standing crops improved.

IV.—*Prospects and probable outturn of harvests.*—The outturn of wheat and spring oilseeds was estimated at 60 per cent., and that of other *rabi* crops at 70 per cent. of the normal. *Mahua* yielded a good crop.

V.—*Damage to crops.*—No serious damage was done to the standing crops. The mango crop was injured in Purnea by a storm. In Saran and Champaran, *rabi* crops on the threshing floor suffered considerably from the heavy rain which fell during the month.

VI.—*Condition of Agricultural stock.*—The condition of agricultural stock was, on the whole, fair. Cattle-disease was reported from Burdwan, Bankura, Midnapore, Nadia, Murshidabad, Jessore, Monghyr, Bhagalpur, Purnea, Puri, Sambalpur and from the Chota Nagpur, Patna and Tirhut Divisions, Saran excepted. The water-supply in North Bihar and in Lower Bengal was greatly improved by the rainfall of the month. Insufficiency of water was felt only in parts of Jessore and Gaya.

VII.—*Failure of Pasturage and Fodder.*—Reports of insufficiency of fodder were received from Midnapore, Jessore, Khulna, Gaya, Champaran, Monghyr, Purnea, and the Santhal Parganas at the beginning of the month, but the rain has brought relief.

VIII.—*Prices of Food-grains.*—During the second fortnight of the month the price of common rice went up in 15 districts and fell in 2 districts, remaining stationary in the rest of the Province. It varied from 8 seers a rupee in Hooghly, Howrah and Darjeeling to 15 seers in Angul. Prices of staple food-grains were generally easier than during the corresponding period of last year.

IX.—*Condition of the labouring classes and agricultural population.*—The month's rain provided considerable field work in the districts in which distress had hitherto prevailed, and there was a marked decrease in the figures of persons on test-works. The number of persons attending famine-relief works in Darbhanga also decreased towards the end of the month. Gratuitous relief continued to be given in Muzaffarpur, Darbhanga, Bhagalpur, Purnea, Palamau and Puri.

GENERAL SUMMARY.—Rain fell in all districts—Gaya, Bhagalpur, Puri, Sambalpur, Hazaribagh, Ranchi Palamau and Singhbhum excepted. In Darjeeling and Cooch Behar, the fall was heavy; in other districts it was light. More rain is wanted in parts of Burdwan, Midnapore, Howrah, Jessore and Darbhanga. Preparation of lands for autumn crops is in progress. Sowing of jute, paddy and other autumn crops continues in most parts of the Province. In parts of Jessore and Burdwan sowings have ceased through want of rain and owing to the same cause early sown *makai* is withering in Patna. There was a cyclone in Purnea on the 16th instant, which destroyed the mango crop completely, and there was considerable damage done to property. Some cattle were killed and loss of human life has also been reported. The price of common rice has risen in Birbhum, Bankura, Patna, Monghyr, Puri, Manbhum and Cooch Behar, and has fallen in the 24-Parganas, Bhagalpur, the Sonthal Parganas, Sambalpur and Palamau. Cattle-disease is reported from Burdwan, Midnapore, Nadia, Jessore, Gaya, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, and from the Orissa and Chota Nagpur Divisions, Cuttack and Singhbhum excepted. Fodder is reported to be insufficient in parts of Jessore, Gaya and Monghyr Water is still scarce in parts of Jessore, Gaya and Darbhanga, and in the north of the Sonthal Parganas. 1,433 persons attended test-works in Muzaffarpur and Bhagalpur, and 46,853 persons were on famine relief-works in Darbhanga. 37,668 persons were gratuitously relieved in Muzaffarpur, Darbhanga, Bhagalpur, Purnea, Puri and Palamau.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

∅, dust storm; d, drizzling rain; p, passing temporary showers; t, thunder; <, lighting; ⚡, strong wind.

DECLARATION.

Manbhum. *No. 719J.D.—The 20th May 1909.*—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the portion of the Jeenagora Branch of the East Indian Railway which leaves the Jharia-Pathardih line at mile 176 feet 4,481, and whereas coal mines are situate under the said land, and whereas Messrs. Khengarji Trikoo & Co. have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 10 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Messrs. Khengarji Trikoo & Co. have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Messrs. Khengarji Trikoo & Co., in the manner and subject to the restrictions below specified, viz.;—

(*a*) No gallery shall be driven and no coal shall be extracted in any place where the distance from the natural surface to the top of the gallery, if driven, is less than 50 feet.

(*b*) Where the distance from the natural surface to the top of the gallery, if driven, is 50 feet or more, galleries not exceeding 12 feet in width, by 12 feet in height, may be driven with centres, not less than 50 feet apart, forming pillars not less than 38 feet square, to be left unworked for the support of the acquired land.

(*c*) In all cases the mixed coal and shale lying above the true coal of the seam shall be left as a roof,

(*d*) Manholes not exceeding 6 feet in height by 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act

(*e*) The above restrictions apply to No. 10 seam only, and to the area edged with pink on the plan, and Messrs. Khengarji Trikoo & Co. shall give notice under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land;

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked LAMA No. 120 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

RULES UNDER SECTION 9 OF THE INDIAN PETROLEUM ACT, 1899, FOR THE IMPORTATION, POSSESSION AND TRANSPORT OF PETROLEUM IN THE PROVINCE OF BENGAL.

PART I.

PRELIMINARY.

Definitions. 1. In these rules,—

(*a*) "Part" means a Part of these rules;

(*b*) "certificated petroleum" means petroleum certified to be non-dangerous petroleum by a certificate of such description as the Government of Bengal may, from time to time, by written order, prescribe, granted at the port of shipment;

(*c*) "petroleum in bulk" means petroleum in quantities exceeding five hundred gallons, contained in any one receptacle;

(*d*) "installation" means a place specially prepared for the storage of petroleum in bulk, or for bulk combined with non-bulk storage, and may be either a major or a minor installation;

(*e*) "major installation" means an installation—

(*1*) capable of containing an amount of oil, whether in bulk only or in combined bulk and non-bulk storage, exceeding fifty thousand gallons, or

(*2*) in which tin-making operations are carried on;

(*f*) "minor installation" means an installation—

(*1*) capable of containing an amount of oil, whether in bulk only or in combined bulk and non-bulk storage, not exceeding fifty thousand gallons, and

(*2*) in which no tin-making operations are carried on;

(*g*) "storage shed" means a building used for the storage of petroleum otherwise than in bulk, and may or may not form part of an installation;

(*h*) "protected works" includes buildings in which persons dwell or assemble, docks, wharves, timber yards, other petroleum stores, and any other place not forming part of an installation, which the Government of Bengal may by notification declare as such;

(*i*) "testing officer" means the testing officer appointed by the Government of Bengal under section 10 of the Act for any port at which petroleum may be imported under these rules;

(*j*) "motor-vehicle" means any vehicle or vessel propelled by a motor, in which petroleum is used as fuel;

(*k*) "owner," as applied to a motor-vehicle, includes a person who hires, or is otherwise entitled for the time being to use or work a motor vehicle;

(*l*) "the town of Calcutta" means all places within the local limits of the Original Civil Jurisdiction of the High Court of Judicature at Fort William in Bengal;

(*m*) "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Act, 1899;

(*n*) "suburbs of Calcutta" means the local area for the time being excluded from the general police district of Bengal by notification under section 1 of the Calcutta Suburban Police Act, 1866.

PART II.

POSSESSION AND TRANSPORT OF PETROLEUM.

CHAPTER I.—POSSESSION OF PETROLEUM.

Smoking prohibited. 1. No smoking shall be permitted inside any installation or storage shed.

Supervision of operations within installation or storage shed.

2. All operations within any installation or storage shed shall be conducted under the supervision of a responsible agent or supervisor.

Cleanliness of installation.

3. The ground in the interior of an installation shall be kept clean and free from goods of a combustible nature, vegetation and rubbish.

Supply of sand or dry earth in installation.

4. A supply of sand or dry earth shall always be kept in an installation for the purpose of extinguishing fire.

Making of capacity of tanks.

5. The capacity in gallons of every tank in an installation shall be conspicuously marked on it, and shall be calculated at the rate of 6·25 gallons per cubic foot.

Protection from lightning.

6. Every tank or other receptacle for the storage of petroleum in bulk, except a tank or receptacle which is not of sufficient capacity to contain ten thousand gallons of petroleum and which is so situated as not to be liable to cause danger in the event of the petroleum being ignited, shall be protected by an efficient lightning-conductor.

Explanation.—A tank or receptacle shall be deemed to be so situated as not to be liable to cause danger in the event of the petroleum being ignited, if it is not in close proximity to any other tank or receptacle, or to any building not forming part of the installation, and if it is surrounded by a wall, or embankment, or sunk in an excavation, the enclosure thus formed being sufficient to contain the whole contents of the tank or receptacle.

Testing of lightning-conductor by licensee.

7. Not less than once in every year the licensee of an installation shall test or cause to be tested the efficiency of the conductor in such manner as the Chief Inspector of Explosives may, by general or special order, declare to be sufficient, and a certificate showing the date of the last test shall be posted in a conspicuous place within the installation.

Official testing of lightning-conductor.

8. Any officer appointed by the Government of Bengal in this behalf may enter any installation for the purpose of testing the efficiency of the conductor, at any time after sunrise and before sunset.

Time for work in installations or storage sheds.

9. No installation or storage shed shall be open, and no work in any installation or storage shed shall be permitted, between sunset and sunrise; provided that in cases where electric lighting is exclusively used, night working may be permitted by the Government of Bengal on the recommendation of the Chief Inspector of Explosives.

Closure of pipes and openings.

10. Where there are any pipes or openings for draining out water in any enclosure wall, arrangements shall be made whereby they can be closed, and they shall only be kept open when actually necessary for drainage purposes. The nature of such arrangements shall be shown in the specifications which are required under rule 10 of Chapter IV of this Part, to be submitted with the application for a license.

Material for storage sheds.

11. All storage sheds in an installation shall be built of uninflammable material.

Posting up of rules and conditions.

12. There shall be hung up in a conspicuous place in every installation and storage shed for which a license has been granted, copies in English and the vernacular, of the rules contained in this Chapter, and of the conditions endorsed on the license.

CHAPTER II.

TRANSPORT OF PETROLEUM.

Conditions of carriage of petroleum in bulk by water.

1. Petroleum in bulk shall not be carried by water except on a ship certified as suitable for the carriage of petroleum in bulk by an officer appointed by the Government of Bengal in this behalf, and the petroleum shall be stowed in such part of the ship and in such manner as may be approved, by general or special order, by the authority so appointed.

Petroleum in bulk on barges or flats.

2. Petroleum in bulk shall not, except with the sanction of the Government of Bengal, be transported on any barge or flat which is not towed by a steamer or motor-tug.

Inflammable cargo, or passengers.

3. No ship shall carry petroleum in bulk which carries at the same time passengers, or any inflammable cargo other than petroleum and its products.

Towage of barge or flat carrying petroleum.

4. No steamer carrying inflammable cargo other than petroleum and its products shall tow a barge or flat carrying petroleum in bulk.

Towage of additional barge or flat carrying inflammable cargo.

5. No steamer towing a barge or flat carrying petroleum in bulk shall at the same time tow any other barge or flat carrying inflammable cargo other than petroleum and its products.

Exemption of petroleum having a flashing point above 150°.

6. Rules 4 and 5 of this Chapter shall not apply when the petroleum carried in bulk has a flashing point above 150° Fahrenheit.

Cleaning of compartments.

7. When any ship has discharged petroleum in bulk, the oil compartments shall be thoroughly cleaned and freed from petroleum and petroleum vapour, before any other cargo or passengers are taken on board.

Hatches to be kept closed.

8. The hatches of oil tanks in all ships certified under rule 1 of this Chapter as suitable for the carriage of petroleum in bulk, and the man-holes in the hatches, shall be kept closed (except in so far as it may be necessary to open them to take on board or discharge petroleum or to clean tanks), so long as there is petroleum in the tanks, and until the tanks have been thoroughly cleaned and freed from petroleum and petroleum vapour.

Loading and discharge.

9. No petroleum in bulk shall be taken on board or discharged from any ship certified as suitable for the carriage of petroleum in bulk, except through a suitable pipe prepared for the purpose.

Naked lights, fire or smoking prohibited.

10. No fire, naked lights or smoking shall be allowed on board any flat or barge carrying petroleum in bulk.

Flag to be carried.

11. The person in charge of any flat or barge carrying petroleum in bulk shall, from sunrise to sunset, show at its stern a conspicuous red flag having the words "Petroleum Boat" marked on it in black letters.

Loading and unloading by night.

12. No petroleum in bulk shall be loaded on or unloaded from any ship between sunset and sunrise, except when electric light is exclusively used.

Validity of license granted in another province.

13. Petroleum may be transported into and within the Province of Bengal under cover of a license granted by the prescribed authority in any other province of British India or in any area outside British India to which the Indian Petroleum Act, 1899, may be applied, provided that the conditions of such license are observed throughout the period during which the petroleum is in transit.

Transport by sea of petroleum which has not been tested.

14. Petroleum which has been imported into the Port of Calcutta, and which has not been tested at the port of import in accordance with the rules contained in Part III, shall not be transported to any other port in British India save one specified in rule 1 of that Part, and the provisions of all the rules of that Part, except rule 22, shall be deemed to apply to such petroleum when it arrives at such other port.

Transport by sea of petroleum which has been tested.

15. Petroleum which has been tested at any port in British India may be transported to any other port in British India, and the provisions of rules 2, 3, 4, 14 (except the proviso), 16, 19 and 20 of Part III shall apply to such petroleum when it arrives at such other port.

CHAPTER III.—GENERAL PROVISIONS RELATING TO LICENSES.

Applications for licenses.

1. All applications for licenses except those referred to in rules 13 and 14 of Chapter IV of this Part, for the possession or transport of petroleum shall be made to the District Magistrate.

The functions of the District Magistrate under this rule and the rule next following and under rule 5 (2) of Chapter IV of this Part shall be exercised in the Town of Calcutta and its Suburbs by the Commissioner or Deputy Commissioner of Police.

Licensing authority.

2. Licenses—

(*a*) for the possession of non-dangerous petroleum, not being petroleum in bulk,
(*b*) for the possession of non-dangerous petroleum in a minor installation,
(*c*) for the possession or transport if dangerous petroleum in quantities not exceeding forty gallons, and
(*d*) for the transport of petroleum, not being dangerous petroleum, otherwise than by a pipe line,

may be granted by a District Magistrate, or by such other authority as the Government of Bengal may, from time to time by order in writing, appoint in this behalf. In all other cases, except as provided in rule 14 of Chapter IV of this Part, the licensing authority shall be the Government of Bengal:

Provided that in the case of renewals of existing licenses the Government of Bengal may delegate its powers under this rule to the District Magistrate or to such other authority as the Government of Bengal may, from time to time by an order in writing, appoint in this behalf.

Refusal of license.

3. The licensing authority may, for reasons to be communicated to the applicant, refuse a license in any case:

Provided that the licensing authority shall not refuse a license for the possession of petroleum in a minor installation, unless such authority has first made a reference to the Chief Inspector of Explosives and obtained his concurrence.

4. Every license granted under these rules shall be liable to be forfeited for any contravention of the Act, or of any rule thereunder, or of any condition contained in such license, or for any other reason deemed by the licensing authority to be good and sufficient, and recorded by him in writing.

Forfeiture of license.

5. Every license and pass granted under these rules shall be held subject to the conditions endorsed on it, and shall contain all the particulars which are contained in the form prescribed for it by these rules:

Particulars of license.

Provided that in the case of installations and storage sheds in existence before these rules were made, the license may contain in lieu of the particulars contained in the form prescribed for it by these rules, either such particulars as may have been entered in the license granted for such installation or storage shed under the rules heretofore in force, or such particulars as may in each case be approved by the Chief Inspector of Explosives.

6. (*1*) Every application for the renewal of a license shall be made in the same manner as an application for an original license.

Renewal of licenses.

(*2*) Every such application shall be made at a date not less than thirty days before the date on which the original license expires, and, if the application is so made, the premises shall be held to be duly licensed until such date as the licensing authority issues the renewed license or until an intimation that the renewal of the license is refused has been communicated to the applicant.

(*3*) The same fee shall be charged for the renewal of a license as for a new license.

7. When any license is granted for the possession or transport of petroleum, a copy of the rules contained in Chapter I of this Part in the case of a license for possession, and in Chapter II of this Part in the case of a license for transport, printed in English and the vernacular, shall be given, together with the license, to the licensee.

Supply of rules to licensee.

8. Where a licensee dies or becomes insolvent or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or these rules for acting under the license during such time as may reasonably be necessary to allow him to make an application for a new license in his own name for the unexpired portion of the original license.

Procedure on death or disability of licensee.

9. Where a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted.

Loss of license.

CHAPTER IV.—LICENSES FOR THE POSSESSION OF PETROLEUM.

1. Save as provided in rules 13 and 14 of this Chapter, every license for the possession of petroleum shall remain in force until the 31st of December next following the date of issue of the license.

Continuance of license.

2. Licenses for the possession of petroleum, not being dangerous petroleum, otherwise than in bulk, may be granted in Form A.

Petroleum not in bulk, other than dangerous petroleum.

3. Licenses for the possession of dangerous petroleum, not in bulk, in quantity exceeding forty gallons may be granted in Form B.

Dangerous petroleum not in bulk.

4. Licenses for the possession of dangerous petroleum in quantity not exceeding forty gallons may be granted in Form C.

Dangerous petroleum not exceeding forty gallons.

5. (*1*) The holder of a license in Forms A, B or C, may, at any time before the expiry of the license, apply for permission to transfer his license to another person.

Transfer of certain licenses.

(*2*) Such application shall be made to the District Magistrate who shall, if he approves of the transfer, enter upon the license, under his signature, an endorsement to the effect that the license has been transferred to the person named.

(*3*) A fee of Re. 1 shall be charged on each such application.

(*4*) The person to whom the license is so transferred shall enjoy the same powers and be subject to the same obligations under the license as the original holder.

6. Special licenses for the possession of dangerous petroleum in receptacles containing more than forty gallons, but not more than 500 gallons each, may be granted on such terms as the Government of Bengal may prescribe on the recommendation of the Chief Inspector of Explosives.

Possession of dangerous petroleum in receptacles containing more than forty gallons each.

7. Licenses for the possession of any stated quantity of petroleum, not being dangerous petroleum, in major installations, in accordance with such specifications and plans as the Government of Bengal, on the recommendation of the Chief Inspector of Explosives, may, from time to time, by general or special order, approve, may be granted in Form D.

Storage in major installations.

8. Licenses for the possession of any stated quantity of petroleum, not being dangerous petroleum, in minor installations, in accordance with such specifications and plans as the Chief Inspector of Explosives may from time to time, by general or special order, approve, may be granted in Form E.

Storage in minor installations.

Dangerous petroleum for use on motor vehicles.

9. (*1*) Licenses in Form F may be granted free of charge for the possession of dangerous petroleum for use on motor-vehicles and for its transport thereon, for the purpose of use therein.

(*2*) The provisions of the ordinary rules relating to the possession of dangerous petroleum shall regulate the possession of dangerous petroleum for use on motor-vehicles, save in so far as these provisions are varied by the conditions of the license.

Particulars to be given in applications for licenses for the possession of petroleum other than licenses under rules 4 and 9.

10. Every application for a license for the possession of petroleum, other than licenses under rules 4 and 9 of this Chapter, shall specify:—

(*a*) the description and quantity of petroleum which the applicant desires to keep,

(*b*) the name and position of the premises intended to be used for the storage of such petroleum, and whether the said premises fulfil the conditions prescribed by Form A, Form B, Form D, or Form E, as the case may be,

(*c*) the amount of petroleum, if any, already licensed to be kept on the same premises.

If the application be made for the first time in respect of any major or minor installation or if the quantity of petroleum to be stored in such an installation is to be increased, the application shall be accompanied by specifications and plans drawn to scale.

Certificate of safety to be furnished.

11. Before petroleum is stored in any major or minor installation for which a license has been granted for the first time, a certificate shall be furnished to the licensing authority to the effect that all enclosure walls and embankments required to be constructed under the conditions of the license are sufficient to ensure safety. The certificate shall be signed by an engineer accepted as qualified for the purpose by the licensing authority. When the license is not granted for the first time but is granted for an increased quantity of petroleum, a certificate shall similarly be furnished to the licensing authority before any quantity of petroleum exceeding the amount which was admissible under the former license is stored in the installation.

Particulars to be given in applications for licenses under rules 4 and 9.

12. Every application for a license under rules 4 and 9 of this Chapter shall specify:—

(*a*) whether the applicant is the owner of a motor-vehicle,

(*b*) the amount of dangerous petroleum the applicant desires to store,

(*c*) the exact position and nature of the premises intended to be used for the storage of such dangerous petroleum, and whether the said premises fulfil the conditions prescribed by Form C or Form F, as the case may be.

Storage by Port authorities.

13. Licenses for the possession of petroleum in an installation or storage shed may be granted by the Government of Bengal free of charge to the Commissioners of the Port of Calcutta, subject to such conditions, and for such period, as the Government of Bengal may direct.

Storage in an installation or storage shed erected on land belonging to Port authorities.

14. Licenses for the possession of petroleum in an installation or storage shed erected on land belonging to the Commissioners of the Port of Calcutta may, with the previous sanction of the Government of Bengal, be granted free of charge by the said Commissioners, subject to such conditions and for such period as the Government of Bengal may direct.

CHAPTER V.—LICENSES FOR THE TRANSPORT OF PETROLEUM.

General licenses for the transport of non-dangerous petroleum.

1. General licenses for the transport of petroleum, other than dangerous petroleum, may be granted for a period of twelve months in Form G.

General licenses for the transport of dangerous petroleum.

2. General licenses for the transport of dangerous petroleum, otherwise than in bulk, may be granted for a period of twelve months in Form H.

Effect of general license.

3. Licenses granted under rules 1, 2 and 9 of this Chapter may authorise the holders to transport petroleum without restriction as to destination or total quantity.

Pass for transport of petroleum.

4. The holder of a general license granted under rules 1, 2 or 9 of this Chapter shall, with each consignment of petroleum conveyed under cover of his license, issue to the person who takes charge of the petroleum for the purpose of transporting it, a numbered pass in Form I.

Special licenses for the transport of petroleum other than dangerous petroleum.

5. Special licenses may be granted for the transport of petroleum, other than dangerous petroleum, in quantities exceeding five hundred gallons in Form J.

Special licenses for the transport of dangerous petroleum.

6. Special licenses may be granted for the transport of dangerous petroleum other than in bulk in Form K.

Effect of special license.

7. A special license granted under rules 5 and 6 shall only cover the transport of the particular consignment entered in the license, and shall be valid for such period as may be entered in it.

Particulars to be given in applications for special licenses.

8. Applications for special licenses for the transport of petroleum by rail, by road, by steamer or by barge, or by two or more of these modes of conveyance, shall specify the description and quantity of petroleum to be transported, and the places from and to which, respectively, the petroleum is to be conveyed, and shall describe the receptacles in which it is to be contained, or, in the case of petroleum to be transported in bulk by water, shall state that the ship in which it is to be carried has been certified as required by rule 1 of Chapter II of this Part.

Transport of dangerous petroleum by motorists otherwise than on a motor-vehicle.

9. General licenses in Form L to transport dangerous petroleum up to a maximum of sixty gallons at a time, otherwise than on a motor-vehicle, may be granted for a period of twelve months to owners of motor-vehicles holding licenses under rule 9, sub-rule (*1*), of Chapter IV of this Part, to possess petroleum and use or transport it on a motor-vehicle.

CHAPTER VI.—FEES.

Method of levying fees.

1. (*1*) Where the proceeds of fees leviable for licenses under these rules have been assigned by the Government of Bengal to any local authority, the fees shall be levied in such manner as the local authority may from time to time direct.

(*2*) In all other cases the fees shall be paid in cash on receipt of a notice from the licensing authority that a license will be granted.

(*3*) The Court-fee stamp of the value of eight annas representing the fee chargeable under schedule II, Article 1 (*b*) of the Court Fees Act on an application for a license presented to a Magistrate should be attached to the application.

Fees for licenses for possession of petroleum.

2. The following fees shall be charged for licenses for the possession of petroleum, namely :—

Non-dangerous petroleum.

	Rs.	
(*a*) When the quantity to be stored exceeds five hundred but does not exceed one thousand gallons.	12	
(*b*) When the quantity to be stored exceeds one thousand but does not exceed five thousand gallons.	12	for the first one thousand gallons, *plus* Rs. 2 for every additional one thousand gallons or part thereof.
(*c*) When the quantity to be stored exceeds five thousand gallons but does not exceed fifty thousand gallons.	20	for the first five thousand gallons, *plus* Rs. 4 for every additional one thousand gallons or part thereof.
(*d*) When the quantity to be stored exceeds fifty thousand gallons.	250	

Dangerous petroleum.

	Rs.	
(*e*) When the quantity to be stored does not exceed forty gallons.	3	
(*f*) When the quantity to be stored exceeds forty gallons but does not exceed five hundred gallons.	8	
(*g*) When the quantity to be stored exceeds five hundred gallons.		the same fees as those laid down for non-dangerous petroleum.

Fees for licenses for transport of petroleum.

3. The following fees shall be charged for licenses for the transport of petroleum :—

Non-dangerous petroleum.

	Rs.
Special license—	
(*a*) When the quantity to be transported exceeds five hundred but does not exceed five thousand gallons.	1
(*b*) For every additional five thousand gallons or part of five thousand gallons.	1
General license for the transport of non-dangerous petroleum by rail, by road, or by water for twelve months.	100

Dangerous petroleum.

Special license—

	Rs.	
(*i*) When the quantity to be transported does not exceed forty gallons.	2	
(*ii*) When the quantity to be transported exceeds forty gallons but does not exceed four hundred and eighty gallons.	2	for the first forty gallons, *plus* 8 annas for every additional forty gallons or part thereof.
(*iii*) When the quantity to be transported exceeds four hundred and eighty gallons.	8	for the first four hundred and eighty gallons, *plus* Rs. 2 for every additional four hundred and eighty gallons or part thereof.
General license for the transport of dangerous petroleum by the owner of a motor-vehicle by road, rail or water, up to a maximum of sixty gallons at a time..	5	

	Rs.
General license for the transport of dangerous petroleum by dealers by rail, road or water.	50

Fee for license granted for unexpired portion of an original license.

4. A fee of one Rupee shall be charged for a new license for the unexpired portion of an original license granted to any person applying for the same in accordance with the provisions of rule 8 of Chapter III of this Part.

Fee for duplicate licenses.

5. A fee of eight annas shall be charged for a duplicate of a license granted in accordance with the provisions of rule 9 of Chapter III of this Part.

PART III.

Of Importation of Petroleum.

Calcutta.

1. The port mentioned in the margin is hereby declared to be the only port at which petroleum may be imported.

Declaration by master of ship carrying petroleum or by the ship's agent.

2. The master of every ship carrying petroleum shall deliver to the pilot before entering any of the ports mentioned in rule 1, a written declaration under his signature stating—

(*a*) what quantity of petroleum the ship is carrying ;
(*b*) whether any and, if so, what part of it is dangerous petroleum ;
(*c*) whether any and, if so, what part of it is certificated petroleum ;
(*d*) whether any and, if so, what part of it is petroleum having a flashing-point above 150° of Fahrenheit's thermometer ; and
(*e*) what quantity of petroleum [specifying whether any, and if so, what part of it belongs to each of the classes (*b*), (*c*) and (*d*)] it is intended to land at that port or at any other port in British India :

Provided that, if, in anticipation of a ship's arrival, the agent for such ship delivers to the Port Officer a written declaration as aforesaid under his signature, no such declaration shall be necessary by the master of the ship.

Delivery of certificate.

3. If the master or agent declares that any petroleum is certificated petroleum which it is intended to land at that port or at any other port in British India, he shall deliver to the pilot, along with his declaration, the certificate relating to such petroleum.

Certificate and declaration to be forwarded to Assistant Harbour Master.

4. Every certificate and declaration delivered to a pilot under rules 2 and 3 shall be made over by him without delay to the Assistant Harbour Master who shall transfer them without delay to the Superintendent of the Port Commissioners' Petroleum Wharf at Budge Budge.

Delivery of samples.

5. (*1*) When the master of, or the agent for, a ship has made the declaration required by rule 2, the Superintendent of the Petroleum Wharf shall direct an officer to go on board the vessel and obtain samples of all the petroleum on board which it is intended to land at that port. If the importer so desires he shall also take samples of all the petroleum on board which it is intended to land at any other port in British India.

(*g*) The master shall deliver to the officer aforesaid, without charge, samples of every variety of petroleum comprised in the petroleum of which samples are to be taken under clause (*l*). Such samples shall, if such officer so require, be taken from the particular receptacles indicated by him and under his personal superintendence, and shall not exceed forty fluid ounces:

Provided that when the petroleum is in cases, samples may be taken as delivery proceeds.

Selection of samples.

6. The minimum number of samples to be selected of each brand or quality contained in the cargo shall be as follows:—

(*a*) of certificated petroleum in cases—

one sample for every fifteen thousand cases or fraction of fifteen thousand cases;

(*b*) of certificated petroleum in casks or drums declared to be of uniform quality—

one sample for every one hundred and twenty thousand gallons or part of one hundred and twenty thousand gallons;

(*c*) of certificated petroleum in bulk or in tanks—

one sample from each group of tanks or tank compartments certified to be of the same brand or quality;

(*d*) of petroleum other than certificated, in cases—

one sample for every ten thousand cases or fraction of ten thousand cases;

(*e*) of petroleum other than certificated, in casks or drums declared to be of uniform quality—

one sample for every eighty thousand gallons or part of eighty thousand gallons;

(*f*) of petroleum other than certificated in bulk or in tanks—

one sample from each tank or tank compartment.

Sealing of samples and forwarding the same to testing officer.

7. When the samples required have been delivered to the officer aforesaid, such officer shall forthwith seal the bottles containing the samples, and shall label them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary. He shall then forward them to the testing officer.

Methods of test.

8. The testing officer shall test the samples thus received in the manner laid down in the first Schedule to the Act.

Averaging results of tests.

9. If more than one sample of any one brand or quality forming the cargo or a portion of the cargo of a ship is sent to the testing officer for report, that officer shall test each sample separately and strike an average of the results. If the average flashing-point is not lower than 73° of Fahrenheit's thermometer, and no one test gives a flashing-point below 70° of that thermometer, he shall report the whole of the petroleum represented by the samples to the Port Commissioners as non-dangerous.

Procedure when tests show want of uniformity.

10. If the testing officer, after testing samples, considers further tests necessary to satisfy him that none of the petroleum is dangerous, he shall report to the Port Commissioners accordingly.

Procedure on report.

11. On receipt of a report under rule 10—

(*a*) when the consignment is imported in cases, the Port Commissioner shall cause the petroleum in question to be landed, or to be discharged into boats, and the officer referred to in rule 5 shall select and deliver to the testing officer one sample from every thousand cases.

(*b*) when the consignment is imported in bulk, the Port Commissioners shall forward a second sample and, until receipt of the testing officer's further report, may prevent the landing of any portion of the contents of the tank in question, or may permit it to be landed as provided in rule 18;

(*c*) if the petroleum has been already landed and stored under rule 18, samples shall be selected as aforesaid.

Report of testing officer.

12. The testing officer shall, as soon as practicable, and ordinarily within twenty-four hours after receipt of any samples, sign a report certifying that they are, or are not, dangerous petroleum, as the case may be, and shall forward such report to the office of the Port Commissioners, where it shall be deposited.

Fee for testing.

13. The fee for testing each sample shall be five rupees:

Provided that the total amount of the fees chargeable under this rule shall not, in the case of any one ship, exceed Rs. 50.

When a ship carrying petroleum may anchor at ordinary anchorage.

14. A ship may proceed to the usual anchorage in any port specified in rule 1 and there discharge any certificated petroleum not exceeding five thousand gallons in quantity:

Provided that the officer whose duty it is, under rule 5, to select samples of petroleum on board, may at any time take a sample of any such petroleum for the purpose of having it tested.

Exception in respect of petroleum declared dangerous which is not in excess of forty gallons.

15. If the quantity of petroleum declared dangerous on board a ship does not exceed forty gallons and there is no other petroleum on board, or the aggregate quantity of petroleum on board, including petroleum declared dangerous, does not exceed forty gallons, the said petroleum may be forthwith landed.

When a ship carrying petroleum must anchor at a special anchorage.

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the port shall appoint in this behalf, and shall not, except for the purpose of discharge of bulk-oil petroleum as laid down in rule 19, leave such anchorage until so much of the petroleum as it is intended to land at that port has been discharged.

Such anchorage shall in no case be the same as that for vessels laden with explosives, and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

Petroleum referred to in rule 16 not to be landed until it has been tested.

17. Save as provided in rule 18, no petroleum shall be landed from any ship referred to in rule 16 until the testing officer's report in respect thereof has been received in the office of the Port Commissioners.

Landing of petroleum in anticipation of the testing officer's report.

18. (*1*) The Port Commissioners may, in anticipation of the testing officer's report, allow the consignee of any petroleum to discharge the same into boats or to land it.

(*2*) Such permission shall be subject to the condition that the boats into which the petroleum is discharged shall remain at such place as may be directed by the Port Commissioners, or that the petroleum shall be landed at a landing-place duly appointed for this purpose, and be stored in an installation licensed under rule 13 or 14 of Chapter IV, Part II.

Landing of petroleum in bulk.

19. When petroleum is imported in bulk, its removal from the ship shall be effected by means of a hose and a metal pipe, and it shall be pumped into storage-tanks. The discharge shall be continuous, day and night, until completed, weather and appliances permitting. When working at night electric light only shall be used; and, when the ship has finished discharging, the pipe to the storage-tanks shall immediately be emptied by means of a supplementary pump on shore. If for any cause the discharge of petroleum is at any time suspended, arrangements must be made by means of a valve for effectually preventing any of the oil left in the pipe from escaping.

Landing of petroleum otherwise than in bulk.

20. When petroleum imported otherwise than in bulk is landed within the port—

(1) it shall be landed either at jetties provided for the purpose, or in cargo-boats, and, except where electric light is exclusively used, only after sunrise and before sunset, and only at such place or places as the Conservator of the port shall direct;

(2) dangerous and non-dangerous petroleum shall not be conveyed to the shore at the same time on the same cargo-boat;

(3) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed in any cargo-boat during the time that the petroleum is on board the boat.

Transhipment of petroleum.

21. Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India.

Provided that—

(*a*) the petroleum shall not be transhipped between sunset and sunrise except when electric light is exclusively used,

(*b*) dangerous and non-dangerous petroleum shall not be conveyed at the same time on any boat which is used for transhipping the petroleum, and

(*c*) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed on any boat which is being used for transhipping the petroleum from the one ship to the other.

Import-licenses how obtainable.

22. (*1*) Applications for import licenses under section 5 of the Act shall be submitted to the officer appointed by the Government of Bengal in this behalf, who will, after enquiry, forward the same with his opinion to the Government of Bengal.

(*2*) If the application is granted, a license in Form M, signed by a Secretary to the Government, shall be forwarded to the applicant through the officer to whom his application was submitted. The license may be granted for a period of twelve months

Petroleum comprised in ship's stores.

23. Nothing in the foregoing rules in this Part applies to petroleum, other than dangerous petroleum, comprised in a ship's stores and manifested as such, provided it is not of unreasonably larg

amount. If any question arises as to whether any petroleum manifested as ship's stores is of an unreasonably large amount, the decision thereon of the Collector of Customs shall be final.

Petroleum having a flashing point above 150°.

24. Nothing in the foregoing rules in this Part applies to petroleum which has a flashing point above 150° of Fahrenheit's thermometer. If the master of, or agent for, a ship certifies in writing that any petroleum on board is of this description, the Port Commissioners shall allow it to be discharged in the same manner as ordinary cargo; but the Superintendent of Petroleum Wharf, may at any time require a sample of any portion of it to be delivered to him, with a view to having it tested.

ENDORSEMENT ON FORM B.

Conditions of License.

1. If the licensing officer call upon the holder of a license, by notice in writing, to execute any repairs of the storage shed, which may, in the opinion of such officer, be necessary for the safety of the shed, the holder of the license shall execute the repairs within such period, not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

2. The license-holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or section 6 of the Act, or any less quantity of such petroleum, except in accordance with the conditions of the proviso to section 6 of the Act, as to the vessels in which the petroleum must be contained.

3. The petroleum shall be stored in gas-tight tinned or galvanized sheet iron, steel or lead plate receptacles containing each not more than forty gallons and fitted with well-made filling holes and well-fitting screw plugs, or fitted with screw cap or other cap with metal air-tight under cap. Such receptacles shall be packed in strong wooden cases, the thickness of the wood to be not less than three-eighths of an inch; provided that wood cases shall not be necessary when the receptacles are made of tinned or galvanized sheet iron or steel, and have the following thickness of metal:—

	Not less than
(1) When the capacity does not exceed two gallons ...	27 B. W. G.
(2) When the capacity exceeds two gallons but does not exceed four gallons	22 B. W. G.
(3) When the capacity exceeds four gallons but does not exceed eight gallons	20 B. W. G.
(4) When the capacity exceeds eight gallons but does not exceed twenty gallons	16 B. W. G.
(5) When the capacity exceeds twenty but does not exceed thirty gallons	14 B. W. G.
(6) When the capacity exceeds thirty but does not exceed forty gallons	12 B. W. G.

4. An air-space of at least one-tenth of its capacity shall be left in each receptacle at the time of filling.

5. The receptacles shall be so substantially constructed and secured as not to be liable except, under circumstances of grave negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

6. The receptacles shall be labelled in accordance with the provisions of section 7 of the Act.

7. Any receptacle, before being repaired, shall be cleared of all dangerous petroleum and of all dangerous vapours arising from the same.

8. The storage shed shall be constructed of masonry or other uninflammable material with terraced, tiled or iron roofs and with tiled or paved or earthen floors.

9. Either the doorways and other openings of the storage shed shall be built up to a height of two feet above the level of the road or street, or the floor sunk to a depth of two feet below the level of the road or street, so that the petroleum cannot flow out from the building in case of its escape from the receptacle in which it is contained, or the building itself shall be surrounded with a masonry wall or embankment or both not less than two feet high. When the quantity of petroleum stored exceeds 16,000 gallons the height or depth shall be three feet.

A combination of these methods is permissible.

10. All ventilating openings in the storage shed shall be protected by strong wire gauze.

11. No light, except a light of such strength, position and character as is not liable to ignite any inflammable vapour, nor fire of any description, shall be permitted at any time within the storage shed.

12. All due precautions shall be taken for the prevention of unauthorised persons having access to any dangerous petroleum kept and to the vessels containing or having actually contained the same.

13. Every person managing or employed on or in connection with the storage shed shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary, and shall prevent any other person from doing such act.

14. The drum or other receptacle containing dangerous petroleum shall only be opened on the licensed premises at or immediately adjoining the storage shed and for the time necessary for drawing off the petroleum, and during such drawing off every reasonable precaution shall be adopted for preventing the escape of dangerous petroleum or the vapour therefrom.

15. The following distances shall be kept clear from protected works round the storage shed:—

Quantity to be stored.					Distances to be kept clear.
Not exceeding	500	gallons	...	...	20 feet.
From 500	to 1,000	„	...	...	25 „
„ 1,000	to 5,000	„	...	...	30 „
„ 5,000	to 15,000	„	...	...	40 „
„ 15,000	to 25,000	„	...	...	50 „
„ 25,000	to 35,000	„	...	...	60 „
„ 35,000	to 50,000	„	...	...	70 „
„ 50,000	gallons and over		...	...	100 „

Provided that these distances may be reduced by the Government of Bengal on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided, or other special precautions taken, or where there are special circumstances that in the opinion of the Chief Inspector of Explosives warrant the reduction.

16. Provided that when the quantity to be possessed does not exceed 60 gallons, the provisions of conditions 8, 9 and 15 shall not apply, but the licensee shall observe the following conditions:—

(i) The storage shed in which the dangerous petroleum is stored shall be well ventilated and constructed of uninflammable material, provided however that the doors and windows may be of wood.

(ii) Where a storage shed forms part of or is attached to another building and when the intervening floor or partition is of an unsubstantial or inflammable character or has openings therein, the whole of such building shall be deemed to be the storage shed and no portion of such storage shed shall be used as a dwelling-house or as a place where persons assemble. The storage shed shall have a separate entrance from the open air distinct from any building or dwelling in which persons assemble.

17. The storage shed shall be liable to inspection by an officer not being of lower rank than an Inspector of Police authorized by the Government of Bengal in this behalf.

1. Each tank shall either be separately surrounded by a wall or embankment of substantial construction, or shall be partially sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain 10 per cent. more oil than the tank is capable of containing, and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire or otherwise. Settling or measuring tanks* may be situated within the wall or excavation but otherwise the space enclosed by such wall or excavation, and not occupied by the tank, shall be kept entirely clear and unoccupied.

2. In the case of all storage sheds within the installation, either the doorways and other openings of the building shall be built up to a height of three feet above the level of the ground outside it, or the floor shall be sunk to a depth of three feet below the level of the ground, or the building itself shall be surrounded with a masonry wall or embankment or both not less than three feet high.

3. The height of any storage tank shall not be more than three-fifths of its diameter.

4. A distance of not less than one hundred feet shall be kept clear between one storage tank and another, or between a storage tank and a storage shed, the distance being measured between the nearest points of the perimeters of the storage tanks or storage sheds, as the case may be.

5. A distance of not less than one hundred and fifty feet shall be kept clear between any storage tank or shed and any protected work.

6. The distances specified in conditions 4 and 5 may be reduced by the Government of Bengal on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided or other special precautions taken or where there are special circumstances that, in the opinion of the Chief Inspector of Explosives, warrant the reduction.

7. No fire or lights other than those necessary for soldering purposes, shall be permitted within the installation except in the office, living quarters, engine-room, boiler-house and smithy.

ENDORSEMENT ON FORM E.

Conditions of License.

1. Every tank of which the capacity exceeds fifteen thousand gallons shall either be separately surrounded by a wall or embankment of substantial construction, or shall be sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain the total quantity of oil capable of being contained in the tank and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire or otherwise. The space enclosed by such wall or excavation and not occupied by the tanks, shall be kept entirely clear and unoccupied.

2. The distance to be kept clear between a tank and the walls or embankments which surround it shall be, measuring from the ground level—

(*a*) for horizontal tanks, not less than one-third the height of the tank;
(*b*) for perpendicular tanks, not less than one-half the height of the tank.

---

* These tanks shall not have a greater capacity than 30,000 gallons.

3. The height of walls or embankments surrounding the installation shall be not less than two feet six inches from the ground level.

4. The following distances shall be kept clear between protected works not forming part of the installation and the enclosure walls or embankments :—

Where the number of gallons stored is—	Distance to be kept clear.
5,000 and under	Not less than 15 feet.
Over 5,000 and up to 20,000	Ditto 20 ,,
Over 20,000 and up to 50,000	Ditto 30 ,,

Provided that these distances may be reduced by the Government of Bengal on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided or other special precautions taken, or where there are special circumstances which in the opinion of the Chief Inspector of Explosives warrant the reduction.

5. Soldering shall only be permitted in a separate room or building placed as far from the tanks as can be conveniently arranged, in which no storage or filling shall be permitted. No more tins shall be allowed in the soldering room at any one time than are necessary for expeditious working.

6. No fire or lights, except those necessary in the soldering room and watchman's house, shall be permitted.

7. If the installation contains tanks of which the capacity does not exceed fifteen thousand gallons, either—

(*a*) each tank shall be separately enclosed in the manner prescribed in condition 1, or

(*b*) the entire installation shall be surrounded by a masonry wall or embankment or a combination of these forming an enclosure of dimensions sufficient to contain, and prevent the overflow of, all the oil that may be stored at any one time within such walls or embankments.

8. In the case of all storage sheds within the installation, which is not surrounded by a masonry wall or embankment as provided in clause (*b*) of condition 7, either the doorways and other openings of the building shall be built up to a height of two feet above the level of the ground outside it, or the floor sunk to a depth of two feet below the level of the ground, so that the petroleum can not flow out from the building in case of its escape from the receptacle in which it is contained, or the building itself shall be surrounded with a masonry wall or embankment or both not less than two feet high. The 24th May 1909.

No. 44Marine.—In exercise of the power conferred by section 5 of the Indian Explosives Act, 1884, and in supersession of the rules sanctioned under the Notification of this Government, No. 100Marine, dated the 14th August 1903, and its amending Notification No 10Marine, dated the 31st January 1905, the Lieutenant-Governor is pleased to make the following amended rules to regulate the transport and importation of explosives, other than those mentioned in section 14 of the Act, in the Port of Calcutta.

These rules are supplementary to the revised rules relating to the transport and importation of explosives, made by the Governor-General in Council, and published under the Notification of the Government of India, in the Department of Commerce and Industry, No. 4555—4, dated the 31st May 1907.

N.B.—"Explosive," as defined in section 4, Act IV of 1884, and as used in these rules—

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powder, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions and every adaptation or preparation of an explosive as above defined. It also includes any dangerous substance which may have been ordered by the Governor-General in Council, under section 17 of the Indian Explosives Act, 1884, to be deemed an explosive.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosives, as defined in section 4, Act IV of 1884, except 2 storm or danger signals and 6 smaller lights of the same description, 24 blue lights, 12 rockets, and 24 detonating signals with friction tubes, or in lieu thereof, 24 one-pound charges of gunpowder for use in a gun. Detonators and their friction tubes to be stored separately. All explosives which vessels are by this rule permitted to keep on board in port shall be stored in all cases in separate, detached and completely enclosed magazines for *each* description of signals. The magazines should be kept in a house on deck and stowed or ranged as far apart as possible, so that in the event of fire they can be removed or thrown overboard.

All explosives which by this rule may be ordinarily retained on board vessels in port shall be discharged before a vessel is taken into dry dock.

2. All inward-bound vessels carrying explosives in excess of the signals of distress named in rule 1 are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the port, which shall have on board any explosives in contravention of

these rules, shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6 and 7, as laid down in the rules issued under Government of India Notification No. 4555—4, dated 31st May 1907, that is to say, gunpowder, ammunition and fireworks in excess of the quantity prescribed in rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping the powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the ship's powder shall not commence until it is landed on the bank, and shall cease as soon as it is shipped on board the boat. Every precaution will be taken to insure the safety of the powder while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's powder, such vessels shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of such consignments, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules published under Government of India's Notification No. 4555—4, dated 31st May 1907, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps brought as part of a general cargo and which have been placed on board the vessels while lying in dock at ports of shipment may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' bye-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

7. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat shall hoist a flag at the fore-topmast head on coming in sight of the magazine as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ship's gunpowder previously to their being landed; if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when artificial lights are required to be used, and no explosives shall be landed, received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the Master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such Master for the re-delivery of such packages.

11. Before entering the limits of the port, the Master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the Master the declaration specified in the fore going rule.

13. If any vessel shall be prevented, by stress of weather, or by being in distress from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels outward bound, who may require distress signals and ship's gunpowder for their outward voyage, shall not take such distress signals and gunpowder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding that named and sanctioned in rule 1.

15. Masters of vessels who have deposited ship's powder at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information orders shall be forwarded to the keeper to place the powder in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the powder on board, the receipt granted by the magazine-keeper shall be given up.

16. Boats shall be permitted to take on board at the Moyapore Magazine and bring as far as Neemuck Mehal Ghât, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50lbs. of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder under the provisions of rules 16 and 17 shall be allowed to proceed above Neemuck Mehal Ghât. All such powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamp between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Home Department, No. 4555—4, dated 31st May 1907, shall make their own arrangements for the discharge of the explosives :—

CLASS 2.—Nitrate mixture.	CLASS 4.—Chlorate mixture.
,, 3.—Nitro compound.	,, 5.—Fulminate.

21. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore Magazine. They shall only be allowed to enter and pass through the port under the supervision of the Port Police and subject to such restrictions as may, from time to time, be ordered by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the rules promulgated by the Government of India under Notification No. 4555—4, dated 31st May 1907. But they may be landed at Diamond Harbour and conveyed thence by rail to Durgapur : provided they are taken direct from the vessel to wagons; or if there be no wagons ready to receive them, arrangements are made for their safe custody after leaving the vessel.

22. Boats containing explosives of the classes specified in the two foregoing rules may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

Rules regarding the presentation of Indian gentlemen at His Majesty's Levées by the Political Aide-de-Camp.

1. No Student, as such, shall be considered eligible for presentation until he has been called to the Bar (if studying law) or taken his degree (if a University Student), or his Diploma, or similar distinction, if studying for any other profession; provided that, in the case of Law Students, the Political Aide-de-Camp, at his discretion, may submit to the Lord Chamberlain for presentation the name of a Student who, having passed his final examination, is awaiting call to the Bar, and would return to India before another opportunity could occur for presenting himself at a Levée.

2. In the case of Indian Visitors to England, evidence must be adduced that the applicant has been received at a Levée or Durbar held by the Viceroy of India, or the Governor or Lieutenant-Governor of the Province to which he belongs, or, if he be the subject of a Native State, that he is a "Durbari" in the Indian acceptation of that term.

3. Young men visiting England, to whom neither of the above rules is applicable, will be treated, if of age, as eligible for presentation at a Levée if their fathers would be eligible under Rule 2.

4. All applications for presentation or attendance at a Levée must be submitted to the Political Aide-de-Camp at least a fortnight before the date announced for the Levée.

5. Indian dress, with patent leather shoes, must invariably be worn by all Indian gentlemen who are presented at, or attend a Levée, by application through the Political Aide-de-Camp.

RESOLUTION—By the Government of India, Home Department.

No. 558.—The following correspondence, regarding the restriction of the growth of the Indian Medical Service and the employment of medical practitioners recruited in India, is published for general information :—

INDIA OFFICE, LONDON,
The 9th August 1907.

Military,
No. 137.

To His Excellency the Right Honourable the Governor-General of India in Council.

MY LORD,

I desire to invite the attention of Your Excellency's Government to Lord George Hamilton's despatches, Military, No. 5, 18th January 1900, and Public, No. 157, 13th December 1900. In the closing paragraph of the last despatch my predecessor observed: "It would be of such a great benefit to India generally that medical men should establish themselves in private practice in the country in the same way as they do in other parts of Her Majesty's Empire without entering the medical service connected with the army, that I am unwilling to accept proposals based upon the assumption that sufficient medical qualification will never be found in or elsewhere outside the Indian Medical Service." I am not aware that this part of my predecessor's despatch has ever formed the subject of a communication from the Government of India, but I am confident that the policy indicated in it will generally have the hearty support of Your Excellency as it has mine. I shall be glad to be informed whether any steps have yet been taken to give effect to that policy, and whether any further measures are in contemplation for promoting the growth of an independent medical profession in India.

I have the honour to be,

MY LORD,

Your Lordship's most obedient, humble servant,

JOHN MORLEY.

No. 20, dated Simla, the 20th August 1908.

From—The Government of India, Home Department,
To—The RIGHT HON'BLE VISCOUNT MORLEY OF BLACKBURN, O.M., His Majesty's Secretary of State for India.

WE have the honour to refer to Your Lordship's despatch No. 137 (Military), dated the 9th August 1907, regarding the measures which have been taken or are in contemplation for promoting the growth of an independent medical profession in India. We desire, in the first place, to explain why we have not replied at an earlier date. Last year we addressed local Governments on the subject of creating appointments of medical officers of health in both urban and rural areas, and we suggested that these posts should, whenever possible, be filled by Indian medical men outside the Indian Medical Service. We felt that the reception given to this proposal would assist us in replying to the despatch, but as only one local Government has at yet favoured us with its opinion, and as we learn that Your Lordship desires an early expression of our views, we proceed to state the general conclusions at which we have arrived.

2. We are in entire sympathy with the desire to promote the growth of an independent medical profession in India, and we recognise the important bearing upon this question of Lord George Hamilton's suggestion that advantage should be taken of the creation of new medical appointments to provide for the admission of independent practitioners either to the new appointments or to some of the posts which are regarded as reserved for members of the Indian Medical Service. One essential restriction, however, upon any reduction of the numbers of that service is that its strength must always be sufficient to meet the medical requirements of the Indian army. In order that it may do this effectually it is necessary that it should include a large reserve of officers whose services would be available on the outbreak of war; and as a measure of economy these reserve officers must in peace time be employed on civil duties. It appears, however, from inquiries we have made, that about one-third of the officers holding these civil posts could not be spared for military duty even in the event of an emergency so grave as to require a general mobilization of the army in India. To the extent of about one-third, therefore, the officers in civil employ do not form any part of the real war reserve, and there would be no military objections to the transfer to independent practitioners of the civil appointments held by them.

3. We have accordingly to consider whether there are objections on other grounds to such a transfer. The posts referred to include certain administrative offices which must continue to be held by senior members of the Indian Medical Service. They also include some of the more important of the civil surgeoncies, superintendentships of lunatic asylums, appointments in the Assay Department, the Chemical Analyser's Department and the Bacteriological Department, and about half the professorial appointments in the various medical colleges. With regard to the last mentioned appointments it has been urged that any large reduction in the number of such posts reserved for members of the Indian Medical Service would seriously diminish the attractiveness of that service and produce a deterioration in the quality of the candidates. We admit that this argument would have considerable force if it were contemplated to deprive the Indian Medical Service of the full number of these appointments at one stroke, but there is no possibility of qualified candidates being forthcoming at present for more than a very small proportion of them, and we do not anticipate that the exclusion of these few posts will have any appreciable effect upon recruitment. By the time that a larger number of qualified candidates is forthcoming it is probable that the number of medical schools and professorial chairs will also have increased, and there will, therefore, be no difficulty in retaining for the Indian Medical Service a proportion of prize appointments sufficient to maintain its attractiveness.

4. The attainment of the object which Your Lordship and ourselves alike have in view depends, then, upon the possibility of finding in this country medical practitioners qualified to hold the appointments which could be thrown open to them. There would undoubtedly be no difficulty in securing the services of private practitioners who are qualified to fill the less important civil surgeoncies, but unfortunately these are just the appointments in which the war-reserve officers of the Indian Medical Service can most suitably be employed, and the transfer of these surgeoncies from that service might, therefore, cause some embarrassment and lead to increased expenditure. For the more important appointments of civil surgeon, the bacteriological and other special posts, and the professorial chairs, very few qualified candidates could at present be found. It is in our opinion of the highest importance and essential to the growth of a really efficient independent medical profession that the present high character of the instruction given in the Medical Colleges in India should be maintained unimpaired. Any diminution of efficiency in that direction would go far to defeat the object in view, and would most certainly retard the more general employment of independent practitioners. Subject, however, to this essential condition of efficiency, we are quite willing to appoint such practitioners, to professorial posts whenever fully qualified candidates are forthcoming. And we shall also be prepared to appoint qualified medical gentlemen outside the ranks of the Indian Medical Service to other posts which are not required for the employment of the war-reserve of Medical officers.

5. We desire to impress upon Your Lordship the excellent work which has been and is being done by the medical schools in India. The majority of the students who pass through those schools do already take to private practice, and in this way an independent medical profession is gradually being created. The general average of attainments of these men is not, it is true, equal to that of the officers of the Indian Medical Service, but each generation of students is better than its predecessors, and provided nothing is done to lower in any way the standard of instruction given in the Medical Colleges, there is every reason to hope that this progressive improvement will be maintained.

6. Your Lordship will observe that in the preceding paragraphs we have considered the question only with reference to the general medical profession in India. We have done so, because we consider that it is an essential condition of the introduction of any scheme for the gradual opening of civil medical appointments now reserved for the Indian Medical Service to the general medical profession that qualified candidates should be available among the natives of this country or the domiciled community. The appointment of English medical men recruited in England would lead to serious practical difficulties, as these gentlemen would require leave to England in the same way as members of the Indian Medical Service, and, if we did not form a leave reserve of men similarly recruited, we should find ourselves in an embarrassing position when they were granted leave. Further, to recruit medical practitioners in England and form a leave reserve would in effect be to create a second medical service, which would doubtless put forward claims to be treated in precisely the same way as the Indian Medical Service, and which would do nothing to promote the growth of an independent medical profession in this country. If European Medical officers are required for any particular appointment or class of appointments, they can, in our opinion, most advantageously be supplied by the Indian Medical Service.

7. We desire to remark incidentally that we anticipate that difficulties may arise from the appointment of independent medical practitioners to particular posts, such as Civil Surgeoncies. Owing to the multiplicity of gratuitous services which are demanded of Civil Surgeons, it is quite possible that, if private practitioners are appointed, patients entitled to such services may not infrequently complain of neglect. At present it is comparatively easy to deal with such complaints; but when the Civil Surgeon is not a member of a particular service, and so liable to transfer, but an independent practitioner permanently resident in the station, it will be difficult, if the complaints prove to be well-founded, to provide any adequate remedy short of his removal from office, and his replacement either by another independent practitioner, if one is available, or by an officer of the Indian Medical Service.

These difficulties, however, are not, we believe, insuperable; and they will tend to diminish with the increase in the number of practitioners who are qualifiedto hold such appointments and anxious to obtain them.

8. In conclusion, we desire to repeat the considerations which in our opinion must govern any advance in the direction indicated in Your Lordship's despatch, *viz*—(1) that the advance should be very gradual and tentative and in the main, though not exclusively, from the bottom; (2) that it should be made only as really qualified candidates become available in India; (3) that nothing should be done to lower the efficiency of the medical schools and their hospitals; (4) that a sufficient number of civil appointments be reserved to provide for the economical employment of the war-reserve of the Indian Medical Service; and (5) that, in determining what these appointments should be, the necessity of maintaining the attractiveness of the Indian Medical Service should be borne in mind. When Your Lordship has placed us in possession of your views upon our proposals, we shall address Local Governments upon the whole subject, and in due course communicate to you the result of our further consideration of the points discussed with them.

INDIA OFFICE, LONDON,
11th December, 1908.

Military.
No. 225.

To His Excellency the Right Honourable the Governor-General of India in Council.

MY LORD,

In connection with Your Excellency's despatch in the Home Department, No. 20, dated 20th August, 1908, I have given consideration in Council to the question whether further steps can be taken to promote the growth of an independent medical profession in India by throwing open to the profession in general some of the various civil appointments now held by officers of the Indian Medical Service, and other similar appointments which may be created in future.

2. I observe with satisfaction that your Government are in accord with the object I have in view. As regards the means to be adopted for attaining that object, I concur generally in the principles laid down at the end of your despatch, and shall be glad to learn, after you have received and considered the opinions of the Local Governments, what measures you can propose in order to give effect to them.

3. Since 1899 successive Secretaries of State have drawn attention to the objections to indefinite extension of the cadre of the Indian Medical Service for the purpose of providing for miscellaneous appointments for which that service, though it may offer well qualified candidates, is not the only, and may not be the most economical, source of supply. Notwithstanding the necessity for restriction, the cadre of the Indian Medical Service has in recent years continued to increase, and, apart from other objections, its further increase would be likely to cause serious difficulties in the matter of recruiting. I have consequently decided that the time has now arrived when no further increase of the civil side of the service can be allowed, and when a strong effort should be made to reduce it by gradually extending the employment of civil medical practitioners recruited in India.

4. Your Excellency's Government will consider what appointments can best be filled in this way. If there should be any particular posts requiring special qualifications, for which suitable persons, whether trained in Indian colleges or holding European medical degrees, be they European, Eurasian, or Indian, cannot be obtained in India, it will be necessary to seek candidates from this country.

5. When it is found impossible to obtain a man from outside the Indian Medical Service to fill a particular new civil appointment, or one which has not previously been so filled, I will not object for the present to that service being drawn upon; but the vacancy so caused must be filled from outside it, *i.e.*, no appointment must be made in succession which would involve an addition to the cadre of the Indian Medical Service.

I have the honour to be,

MY LORD,

Your Lordship's most obedient, humble servant,

MORLEY OF BLACKBURN.

Before selecting their subjects students are recommended to apply for advice as to the course of study to the Principal or Professor in charge. The number of students admitted to the Science Course will be strictly limited, so that very early application is advisable. In making final admission to these courses, preference will be given to Behari students who pass their examinations in the First or Second Division.

Form of application for recognition of guardian.

Name of student:—

Name and address of guardian:—

Profession of guardian:—

Age of guardian:—

Relationship of guardian to student:—

I desire to appoint the above named gentlemen as guardian to my son for the following reasons:—

Signature of parent.

I UNDERTAKE to act as guardian to the above named student and will hold myself responsible for his physical well-being and good conduct outside of college hours, and for the payment of all sums due from him to the college. I also undertake to furnish such reports and information concerning my ward as may be called for at any time by the Principal of the college.

Signature of guardian.

BIHAR SCHOOL OF ENGINEERING

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of elementary mathematics.

(2) Careful training in survey work.

(3) Drawing, both free-hand and engineering.

(4) Elements of road-making and the construction of simple buildings.

(5) Workshop practice, with hand tools and machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this school, who must be a Bihari by race.

4. The next session will commence on 5th July 1909.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and mathematics.

(2) Standard VII of the Code of European schools.

(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and mathematics (of about the same standard as the Entrance Examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 6th and 7th July, respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their applications must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father with his family have taken up their residence in Bihar.)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pase the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

Candidates for Amin class, who have not passed the Middle English or Middle Vernacular examination, will be examined at the school on the 7th July; candidates failing at this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 5th July 1909, unless application for admission is made before 30th June 1909.

10. All candidates for admission to the school should present themselves personally at the school on 5th July.

11. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians whose homes are near enough to enable them to attend the school at the required times. The Principal of the College will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

BANKIPORE,

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Sudamdih-Pathardih Link, Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 8 o'clock on Monday, the 7th June 1909, corresponding with the 24th Jaisto 1316 Fusli, at Jharia.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, specified in the conditions of sale below, to the undermentioned estate, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on he 21st June 1909, corresponding with 7th Ashar 1316 B.S.

(Bengali, Fusli, or Umli, according to the era current in the district.)

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily-settled districts in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions on expiry of each settlement. In the case of an estate, situated in a permanently-settled area and yielding an annual rental of less than Re 1, there should be no condition regarding payment of land revenue.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Collector's Office, Nadia, the 17th April 1909.

J. A. FERCHIEL, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the East Indian Railway, Bhagalpur-Bausi section of the S. Railways, in the district of Bhagalpur, will be put up to sale locally at 10 o'clock on the 16th of August 1909, corresponding to the 15th Sawan, 2nd 1316 Fusli, or subsequent dates as may be postponed to.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary or to plough the lands nearer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

AWARD OF SENIOR SCHOLARSHIPS.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 15th May 1909.

RESOLUTION—No 506T.—G.

READ—

The letter from the Director of Public Instruction, Bengal, No 4076, dated the 17th March 1909.

Certain scholarships, known as senior scholarships, provided by Government or from private endowments, have hitherto been awarded by the Director of Public Instruction on the results of the First Examination in Arts held by the Calcutta University. Government senior scholarships of the highest grade carry monthly stipends of Rs. 25, and are awarded to the most successful candidates in the entire province. The second grade Government senior scholarships, on the other hand, have been reserved for special tracts and localities, and are awarded to those who distinguish themselves most among the candidates from the selected areas, but fail to obtain first grade scholarships.

These scholarships carry monthly stipends of Rs. 20. A third class of Government senior scholarships, called special senior scholarships, has been exclusively reserved for classes of students either educationally backward or requiring special encouragement. These scholarships, which vary in value from Rs. 7 to Rs. 25, are awarded to the most successful candidates of each of these classes who do not obtain any of the higher scholarships. Endowed scholarships are awarded in accordance with the terms of the endowment in each case.

2. All classes of senior scholarships have hitherto been awarded according to the position of candidates on the list of the results of the First Arts Examination published by the Calcutta University. The First Arts Examination will be replaced in 1909 by the Intermediate Examinations in Arts and Science; and the senior scholarships will in future have to be distributed among two different classes of students. The position attained by a student on the joint list of successful Arts and Science students will be a guide only in comparison with other candidates in the same branch of the examination. At the same time it is not possible to lay down a hard-and-fast rule for the allocation of the scholarships in a definite proportion between Arts and Science students. The Director of Public Instruction is accordingly authorised to assign scholarships to Arts or Science at his discretion, and to apportion scholarships between Arts and Science candidates in such manner as, in his judgment, best accords with the comparative merits of the candidates. Subject to this modification the existing rules for the award and tenure of senior scholarships will be observed as before.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette*, that a copy be sent to the Director of Public Instruction, Bengal, and a copy to the Accountant-General, Bengal, through the Financial Department.

By order of the Lieutenant-Governor of Bengal,

J. G. CUMMING,
Offg. Secy. to the Govt. of Bengal

RESOLUTION ON THE TRIENNIAL REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1906, 1907 AND 1908.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 19th May 1909.

RESOLUTION—No. 276T.—Medl.

READ—

The Triennial Report on the Lunatic Asylums in Bengal for the years 1906, 1907 and 1908.

Read also—

The Annual Returns of the Lunatic Asylums in Bengal for 1906 and 1907 with the remarks recorded thereon by Government.

1. An important incident of the triennial period under review was the closure of the Cuttack Asylum in 1903, and the transfer of its inmates to Berhampore. The present report, therefore, deals with the asylums for Indian lunatics at Berhampore and Patna, and the European Lunatic Asylum at Bhawanipur, Calcutta.

2. Shortly after its occupation the asylum at Berhampore was found to be unsuitable on structural and other grounds. As the cost of the improvements and extensions considered desirable was considerable, it was proposed to make over the buildings to the Jail Department, which was in need of further accommodation, and to construct a combined asylum on approved modern lines, for all the Indian lunatics in the province, at Ranchi, which, from the point of view of climate and the facility for acquiring land, possessed various advantages. The project received the sanction of the Government of India, and detailed plans of the buildings have been nearly completed. A similar scheme for the establishment at Ranchi of a central asylum for European lunatics from the Punjab, the United Provinces, the Central Provinces, Bengal, and Eastern Bengal and Assam was drawn up, and the report of a Special Committee, appointed at the instance of the Government of India to examine the matter, is now under the consideration of that Government. There are manifest advantages in locating both asylums in one place, under suitable conditions, and under the constant supervision of officers specially trained in the treatment of lunacy. In the case of the present combined asylum for Indian lunatics at Berhampore, the direct supervision of the whole-time Superintendent, Major C. J. Robertson-Milne, I.M.S., who was specially deputed to this province in 1906 to take charge of the asylum, has already proved beneficial.

3. It was found necessary early in the present year, to undertake legislation in order to remove the legal difficulty which had arisen in consequence of the closure, during 1905, of the Dullunda Asylum in Calcutta. So long as there was an asylum situated within the limits of the Presidency town, paying lunatics, who were residents of Calcutta, could be admitted to it on the application of their relatives and on the certificate of two Medical Officers. But in order to legalise the despatch of such patients to Berhampore, an order from the High Court was requisite, under the provisions of section VIII of Act XXXVI of 1858. The only alternative procedure, by which the expense of such an application could be saved, was for the lunatics to be sent as paupers under an order of the Commissioner of Police or a Magistrate, and to this course there were obvious objections. This defect has now been removed by the amendment of the Act of 1858, dispensing with the need of the intervention of the High Court.

4. In connection with the foregoing point the question of amending the Lunatic Asylums Act in various orther respects was also considered, and suggestions have been submitted to the Government of India. The revision of the rules under the Act, which were framed so long ago as 1878, is being dealt with by Government.

5. The total asylum population at the close of each of the three years under review was 836 in 1906, 852 in 1907, and 865 in 1908. Since the

asylums have accommodation for 963 patients, and the maximum number confined on any one night was 893, there was no general difficulty from overcrowding, but at Bhawanipur more space was required at times.

6. The health of the inmates of the asylums during the triennium under review was on the whole good. The total number of admissions to hospital were 850 in 1906, 555 in 1907, and 746 in 1908. The increase in 1908, as compared with the previous year, is ascribed to the fact that cases of indifferent health and trifling ailments received regular treatment in hospital instead of in the quarters of the lunatics, as was the previous practice. Cases of fever decreased from 267 in 1906 to 185 in 1907, and 149 in 1908, and there were no deaths from this cause. These good results are attributed to the regular administration of prophylactics to the inmates during the unhealthy season of the year. There was also a noticeable decrease in the number of cases of bowel-complaints (dysentery and diarrhœa), the figures being 123 in 1906, 81 in 1907, and 48 in 1908. The deaths under this head for the three years numbered 20, 7 and 5 respectively. The most noticeable decrease in this respect occurred at Patna, and is said to have been due to improvements effected in the water-supply. Phthisis was unfortunately largely prevalent in the Berhampore Asylum, but special arrangements have been made for the separate treatment and segregation of tubercular patients. Seven cases of leprosy were under treatment at Berhampore, of which two ended fatally. A proposal to construct a separate ward for leper lunatics is now under consideration.

7. The total death-rate calculated upon the daily average strength was 10·27 in 1906, 8·94 in 1907, and 7·63 in 1908, an average of 8·94 against 10·29 in the previous triennium. It is gratifying to notice that, as shown by the Inspector-General of Civil Hospitals, the rate of mortality in 1908 was less than that in other provinces in India, as also than that recorded in County and Borough Asylums in England in 1907.

8. Complaints are still made by the asylum authorities of the incompleteness of the medical history sheets of the lunatics committed to the asylums, and this, unfortunately, is not a new matter. It was noticed in the course of the review of the reports for the years 1903—1905, and special orders calling attention to these defects were issued in May 1908. It is now stated that out of 122 admissions to the Berhampore Asylum the medical history sheets in no less than 40 cases contained no useful information. There are, no doubt, obstacles in the way of eliciting the true facts, and, it is understood, that similar difficulties are experienced in the United Kingdom and elsewhere, but there is evidence that enquiries are not infrequently slurred over by the committing Magistrates and the Police, and the results would have been worse but for the special efforts of the Superintendent of the Berhampore Asylum, who entered upon protracted correspondence in the hopes of clearing up points of doubt. The exact knowledge of the antecedents in cases of lunacy is of such great importance to the effective treatment of the disease, that the Lieutenant-Governor must insist upon greater attention being paid to the subject, and the Superintendents of asylums should bring to the notice of Commissioners of Divisions any instances in which serious negligence is apparent. Should satisfactory explanations not be forthcoming, Commissioners are requested to report to Government the names of the officers at fault. District Magistrates should also arrange that these cases are only dealt with by experienced subordinates and should check the tendency to report, without due enquiry, some stereotyped reason for insanity, such as the smoking of *ganja*.

9. The thanks of the Lieutenant-Governor are due to Colonel Macrae for his report, and to Major Robertson-Milne and the other officers who acted as Superintendents of the several asylums during the period under review, for their careful administration of the institutions under their charge, on the good results attending which they are to be congratulated.

FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1908-09.

THE following note is published for general information.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1908-09.

[On an average of five years ending 1906-07 the area under wheat in the territory to which this forecast relates has represented some 4·81 per cent. of the total area under wheat in India.

The ratio of the irrigated wheat acreage to the total wheat acreage (*a*) in British India and (*b*) in the territory now reported on has, in the five years ending 1906-07, averaged (*a*) 38·1 per cent. and (*b*) 1·8 per cent., respectively.]

Character of the season.—Sowings began early in September, but the full area could not be sown owing to the drought which prevailed from the second week of October. The showers received in the end of January and also in February were beneficial, but they were scanty in Bihar, where the crop is most important, and the crop in the unirrigated tracts of North Bihar was badly affected.

Area sown.—The normal area under wheat is now returned as 1,351,500 acres; the area sown this year amounts to 1,255,200 acres, a decrease of 96,300 acres, or 7 per cent.

Outturn.—In Bihar which accounts for 87 per cent. of the total wheat area the outturn has been estimated at 53 per cent. of the normal. The other districts in which the crop is important are Murshidabad, Nadia and Hazaribagh. The outturn in the two former districts is estimated at 44 per cent. and in the latter at 55 per cent. The outturn for the whole province as estimated by the Agricultural Department is 60 per cent. of a normal crop.

According to these returns, the gross yield for the province works out to 319,800 tons against 299,200 tons of last year.

Food-stocks and prices of food-grains.—The three harvests of the year, viz., *aghani*, *bhadoi* and *rabi*, were much below the average, their outturns being 72, 65 and 67 per cent. of the normal respectively. The food-stocks of the previous harvest are reported to be low in most districts. The following table shows the prices of wheat in Calcutta and the

average prices in selected important wheat-growing districts for the year 1907-09 :—

Exports of wheat from Calcutta by sea during the 11 months from April 1908 to February 1909 amounted to 67,083 maunds against 1,95,935 maunds for the corresponding period of last year, and the imports by all routes for the same period aggregated 3,184,757 maunds and 4,398,005 maunds, respectively. The exports and imports of 1907 for the same period were 175,668 maunds and 4,312,185 maunds respectively.

The rain that fell in January improved the prospects of the crop and a fair outturn has been obtained. The date of harvesting was normal. The increase of 14,000 acres in the estimated area shown in column 6 as compared with the corresponding figure shown in the second forecast is due to the fact that the Sub-divisional Officer of the Aurangabad Sub-division has shown an increased estimate of area in the present forecast.

THIRD AND FINAL FORECAST OF THE SPRING OILSEED CROPS OF BENGAL FOR 1908-09.

THE following is published for general information.

F. W. DUKE,
Offg. Chief Secy. to the Govt. of Bengal.

The 25th May 1909.

DEPARTMENT OF AGRICULTURE, BENGAL.

THIRD AND FINAL FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1908-09.

[On an average of the five years ending 1906-07, the area under linseed and rape and mustard in the territory to which th s forecast relates have represented some 22·5 and 12·7 per cent. respectively, of the total area under these crops in British India.]

Explanatory.—This is the final of the three forecasts to be issued of the spring oilseed crops under recent orders of the Government of India. It deals with the revised estimates of the area and outturn of the crops after the publication of the second forecast in February last.

Character of the season.—The time of sowing was normal, but the absence of rain after the second week of October prevented the full normal area being sown and also affected the growth of the crops. The rainfall in the end of January and beginning of February was late but improved prospects in a few districts. On the whole the season was very unfavourable.

Area sown.—The total normal area under the different kinds of oilseeds in the Province, except *til*, is estimated at 2,170,300 acres. The area actually sown this year amounted to 1,557,500 acres against 1,403,100 acres last year.

Outturn.—From Appendix I attached to the report it will be seen that Sambalpur reports 82 per cent. of a normal crop. In six districts the crop is between 70 and 75 per cent. of the normal, in ten districts between 61 and 69 per cent., and in eight districts between 50 and 59 per cent. In the remaining eight districts a poor crop is anticipated, viz., Nadia and Bhagalpur (46 per cent.), Angul (40 per cent.), Patna (37 per cent.), Jessore (36 per cent.), Darbhanga (33 per cent.), Birbhum (32 per cent.), and Purnea (25 per cent.). Since the issue of the second forecast in February last prospects have slightly improved in Bihar, Nadia, Murshidabad, Puri, Sambalpur, Hazaribagh and Palamau. The outturn of the different kinds of spring oilseeds for the whole Province amounts, according to the district returns, to 54 per cent of the normal crop, *i.e.*, 3 per cent. higher than what was estimated in the second forecast but the outturn for the

whole Province is estimated by the Department of Agriculture at 60 per cent. of a normal crop. The outturn of last year was 64 per cent. Taking six maunds per acre as the normal rate of outturn for linseed, rape and mustard, and 4½ maunds per acre for other oilseeds the gross yield of all the spring oilseeds for this Province amounts to 189,700 tons against 188,000 tons of last year.

W. R. GOURLAY,

Offg. Director of Agriculture, Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT FOR THE YEAR 1908

JUDICIAL DEPARTMENT.

Dated Darjeeling, the 24th May 1909.

RESOLUTION No. 789J.—D.

READ—

The Report on the Administration of the Jail Department for the year 1908

READ also—

The Reports for the years 1906 and 1907 and the Resolutions of Government recorded thereon.

1. The report under review has been submitted by Lieutenant-Colonel W. J. Buchanan, I.M.S., who was in charge of the Department throughout the year.

2. An outstanding feature of the report is the striking increase in the jail population. Not only did admissions increase from 78,894 in 1907 to over 1,01,000 in 1908, but the daily average number of prisoners rose from 15,275 to 16,853. This increase of fully 1,700 would in itself have been sufficient to provide four or five new district jails of average size with their full complement of prisoners. The increase in the number of under-trial prisoners admitted in recent years is particularly striking. In 1905 only 29,946 were admitted against 33,101 in 1907 and 44,804 in the year under review. The average period of detention of prisoners in district and central jails was 34·1 days in sessions cases and 17·4 days in other cases, compared with 27·4 and 15·6 days, respectively, in 1907; and in subsidiary jails 16·3 against 15·6 days.

3. The only new jail opened in 1908 was the second-class District Jail at Alipore known as the Juvenile Jail. This jail is used for adolescent prisoners, and its opening marks another step in the separation of the different classes of prisoners. The Lieutenant-Governor recognizes the desirability of reserving a special jail for habitual offenders, and he has given his general approval to the proposals of the Inspector-General. A detailed scheme will be called for when the financial position permits of the allotment of funds.

4. In consequence of the increase in the jail population, the daily average number of convicts exceeded the number for whom accommodation is provided in no less than 19 out of the 37 jails in Bengal; while the accommodation in the under-trial wards was found insufficient in 22 jails. There was temporary overcrowding in several other jails, but it was generally found possible to relieve this by means of transfers. The new Presidency Jail, which is approaching completion, will be utilized as soon as it is ready; but the increased accommodation which it provides, as compared with the old jail, is only sufficient for 99 inmates, and is quite inadequate for the excess population for whom the Government now has to provide. It will probably be necessary to maintain the old Presidency Jail for a short time, in addition to the new one, and in the meantime proposals will be matured for permanently increasing the capacity of the jails in the Province either by the construction of a new central jail, or in other ways which are now under consideration.

5. A second outstanding feature of the year is the regrettable increase in the death-rate. The daily average number of sick prisoners of all classes shows a considerable increase over the number in 1907. The ratio of sick to every thousand prisoners however only increased from 34·2 to 36·5, which is less than the proportion in 1905 and equal to that in 1906. The death-rate in 1907 was 17·5 per mille, which was by far the lowest annual death-rate on record in the province. In 1908, however, the death-rate rose to 30·9 per mille and the total number of deaths among all classes of prisoners was 522 as against 268 in the previous year. Though the general unhealthiness

of the year throughout the province is chiefly responsible for this abnormal increase, there were several other contributing causes. Overcrowding in jails must necessarily tell against the health of the inmates, and particularly of those suffering from tubercular diseases. In many districts scarcity led to the incarceration of a number of persons in feeble health. The chief causes of death among the prisoners were tubercle of the lungs, dysentery and cholera. Seventy-eight convicts died of tubercular diseases of the lungs during the year. Diseases of the bowels, which invariably accompany famine and scarcity, were particularly prevalent. They accounted for 7·4 of the total increase of 13 4 deaths per mille among convicted prisoners. Cases of cholera occurred in 16 of the district and central jails, and this disease was responsible for 57 deaths as compared with 3 only in 1907. In most cases the outbreak coincided with an epidemic of the disease in the neighbouring towns. The disease was, in almost all cases, traced to outside infection. Dysentery also shows a marked increase, which must largely be attributed to the general unhealthiness of the year. His Honour shares the regret of the Inspector-General that, owing to the exigencies of the service, Captain W. E. H. Forster could not be spared to carry on his campaign against this formidable disease. It is noteworthy that in spite of the unhealthy season the number of deaths from malaria again showed a decrease.

6. The total earnings derived from the manufactures carried on in all classes of jails amounted to Rs. 4,56,127 as compared with Rs. 5,67,106 in 1907. The cash earnings amounted to Rs. 3,10,012 against Rs. 3,50,581 in the previous year. The average earnings per head of convicts sentenced to labour has fallen from Rs. 46-12 in 1906, to Rs. 40-7 in 1907 and Rs. 32-3 in 1908. These earnings in central jails vary from Rs. 134-9 per head in the Presidency Jail, where the principal industry is printing, to Rs. 23-13 in the Hazaribagh Jail, where the convicts are employed in weaving blankets, in pounding aloes and in various minor industries. The Lieutenant-Governor agrees with the Inspector General that, in the general interest of the public, all orders on behalf of Government should, when possible, be placed with the Jail Department. The quinine industry has been concentrated at the Juvenile Jail at Alipore, as the work is well suited to youths. More than four million pice packets were made up and despatched to post offices during the year. His Honour trusts that the experiment of issuing quinine in tablet form will result in its more general use among all classes of the population in the malarial districts.

7. The number of offences committed by convicts was 28,688 against 25,731 in 1907. The increase in the number of offences is largely due to the increase in the average daily number of convicts. About 40 per cent. of the offences were committed by A class prisoners, while 60 per cent. were committed by B class or habitual offenders, though the two classes of prisoners were practically equal in number in district and central jails. The Inspector-General points out that the number of floggings increased from 83 to 116. This increase was almost entirely due to the large number of floggings in the Buxar Central Jail. The case of the Superintendent to whose deficiencies the Inspector-General attributes this increase is at present under consideration. In spite of the increase in the number of convicts there were only 14 escapes during the year, which is the same number as in 1907. Of these 14 persons, 11 were recaptured in addition to one prisoner who escaped in the previous year.

8. One thousand five hundred and eighty-three punishments were inflicted on warders as against 1,340 in 1907. In the majority of cases such minor punishments as fine and extra drill were imposed, but 39 warders were dismissed and 40 were degraded or suspended. The decrease in the number of desertions from 112 in 1907 to 41 in 1908 is most satisfactory, and seems to indicate that the improvement in the pay of warders has enhanced the attractions of the service.

9. In more than one passage of his report the Inspector-General has referred to the defects of the present system under which the duty of guarding the prisoners is largely entrusted to convict overseers and convict warders. The chief argument in favour of this system is economy; while on the other hand efficiency and discipline must necessarily suffer. Considerable difficulty is also being experienced in finding suitable convicts to perform these duties, owing to the steady increase in the proportion of reconvicted prisoners, who are not

eligible for selection. six thousand nine hundred and seventy reconvicted prisoners were admitted in 1908 as compared with 4,462 in the previous year. There can be no doubt that the system of employing convict guards was to some extent responsible for the murder of Norendra Nath Gossain, the approver in the Alipore conspiracy case. A full enquiry was made into the circumstances attending the murder; and Government dealt suitably with the officers whose negligence or misconduct facilitated the commission of the crime. At the same time, the Lieutenant-Governor is constrained to agree with the Inspector-General of Prisons that radical improvements are necessary in the system of guarding prisoners, and is giving earnest consideration to the proposals which the Inspector-General has submitted with that object. These include not only a considerable increase in the staff of paid warders, but the improvement of their pay and prospects. The past year, however, has seen some improvements in the conditions of service in the Jail Department. In August 1908, the Government of India sanctioned an increase in the pay of warders, and certain concessions in the matter of sick leave have also been granted to them. Recently, clerks have been provided to relieve Assistant Surgeons who are Deputy Superintendents of subsidiary jails, of the clerical part of their duties. His Honour is glad to note that the increase in the pay of Jailors, Deputy Jailors and Assistant Jailors, sanctioned with effect from the 1st April 1909, has given general satisfaction to those officers.

10. The Discharged Prisoners' Aid Society continued its useful work during the year. Seventy-six *ex*-prisoners in all received assistance from the Society. The annual grant of Rs. 3,000 from the Claude Martin Fund was received from the Commissioner of Police and 1,949 released convicts received help from this source.

11. The names of the officers specially commended by the Inspector-General have been noted. The Lieutenant-Governor thanks Lieutenant-Colonel Buchanan for his able administration of the Department during the past year and for the interesting report which he has submitted.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons for information and guidance.

Ordered also that a copy of this Resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

† The report is for the week ending the 15th May 1909.

GENERAL SUMMARY.—Rain fell in all districts except in South Bihar and in Monghyr, Sambalpur and Palamau. The fall was heavy in parts of Burdwan, Midnapore, Nadia, Jessore and Cooch Behar: elsewhere it was light. More rain is wanted in parts of Midnapore and Bhagalpur. Sowings of jute and paddy are in progress. Preparation of lands for early monsoon crops continues, but progress in this respect is being retarded for want of moisture in parts of Darbhanga and Monghyr. The outturn of *mahua* has been good. Sugarcane and vegetables are doing well. The price of common rice has risen in Midnapore, Saran, Balasore and Sambalpur, has fallen in Jessore, Patna and Shahabad and has been stationary elsewhere. Cattle-disease is reported from Burdwan, Midnapore, Nadia, Jessore, Patna, Champaran, Muzaffarpur, Angul, Puri and Sambalpur, and from the Bhagalpur and Chota Nagpur Divisions, Darjeeling and Singhbhum excepted. Fodder is insufficient in Jessore, Monghyr and the Sonthal Parganas. The water-supply is still scarce in parts of Murshidabad, Monghyr and the Sonthal Parganas. The number of persons on test-works in Muzaffarpur and Bhagalpur was 845 and the number on famine relief-works in Darbhanga was 43,118. 37,452 persons were gratuitously relieved in Muzaffarpur, Darbhanga, Bhagalpur, Purnea, Puri and Palamau.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF APRIL 1909.

THE pressure distribution over the two provinces was somewhat irregular during the first week of the month; local rain fell in Assam and Eastern Bengal, and the temperature was in defect towards the north-west.

During the second week a pressure gradient, rather unusually steep for the time of year, developed over the two provinces, the actual pressure over Bengal being considerably below normal. Dust-storms and nor-westers occurred at many stations, and local rain was experienced in Bengal, Eastern Bengal and Assam.

On the 17th, the temperature was in defect over practically the whole of the reporting area. Subsequently, an indraught of moist air from the Bay deflected in a westerly direction was responsible for rain in Bihar and the west of Bengal. Temperature at the end of the third week was very considerably below normal over the western portion of the two provinces. These unusually low temperatures were probably associated with a depression of the cold-weather type which was reported to be over Rajputana, and which continued for several days to affect the weather in the western portion of the reporting area. It was responsible for a good deal of rain.

The rainfall was in considerable excess throughout the month in Bengal, Bihar, Orissa, which received respectively 227, 271 and 376 per cent. more than the usual amount. In Assam the rainfall was 12 per cent. less than the average. Humidity was rather high throughout April, and the temperature averaged about 2° below normal in Eastern Bengal and Assam and 4° in Bengal.

Summary of temperature.—The highest temperature recorded was 106°·5 at Raniganj and the lowest 59° was recorded at Daltonganj.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Eastern Bengal and Assam and of Bengal for the month of April 1909:—

Summary of rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

∂, dust-storm; d, drizzling rain; p, passing temporary showers; o, overcast; K, thunder-storm.

CUSTOMS.

Simla, the 25th May 1909.

No. 3610—4.—In exercise of the powers conferred by section 8-A, sub-section (2), and section 8-B, sub-section (3), of the Indian Tariff Act, 1894 (VIII of 1894), as amended by the Indian Tariff (Amendment) Act, 1899 (XIV of 1899), the Indian Tariff (Amendment) Act, 1902 (VIII of 1902), the Indian Tariff (Amendment) Act, 1903 (XII of 1903), and the Tariff Act, 1904 (XI of 1904), and in supersession of the rules for the identification of sugar published in the Notification of the Government of India in the Finance and Commerce Department, No. 4439S. R., dated the 14th August 1902, as amended by the Notification in that Department, No. 5202Exo., dated the 15th August 1904, and by the Notifications in this Department, No. 523, dated the 10th March 1905, and

No. 1351-7, dated the 21st February 1906, the Governor-General in Council is pleased to make the following rules for the identification of sugar chargeable with an additional or special duty imposed under sub-section (1) of the said sections respectively, and for the assessment and collection of such additional or special duty, namely :—

RULES.

1. For the purposes of these rules, unless there is anything repugnant in the subject or context, "Customs-port," "Chief Customs authority," "Customs Collector," "owner" and "public warehouse" have the meanings respectively assigned to them in the Sea Customs Act, 1878 (VIII of 1878).

2. Where any sugar is imported into any Customs-port, the owner shall declare to the Customs Collector in what country such sugar was produced, and shall furnish him with such other information as may be necessary to enable him correctly to assess the additional or special duty (if any) chargeable under sub-section (1) of section 8-A or 8-B, respectively, of the Indian Tariff Act, 1894 (VIII of 1894).

3. (*1*) Where the information required by rule 2 is not furnished, the Customs Collector shall deposit and detain the sugar in such part of the Custom-house premises as he may deem suitable.

(*2*) The owner of any sugar deposited and detained under sub-rule (*1*) may, at any time, clear such sugar on payment of the additional or special duty leviable thereon and of the other charges payable to the Customs Collector, whether for wharfage-fees or otherwise, in respect of the same.

(*3*) For the purposes of sub-rule (*2*) and for the purpose of calculating the surplus payable to the owner under section 88 of the Sea Customs Act, 1878, the additional or special duty leviable upon any sugar deposited and detained under sub-rule (*1*) shall, if the information necessary for the correct assessment of the additional or special duty leviable thereon has not been furnished, be assessed at such rate not exceeding the highest rate of additional or special duty leviable upon any class of sugar as the Governor-General in Council may, by general or special order, fix in this behalf.

4. The Customs Collector may accept the information required by these rules in any form which he may consider sufficient; and he shall accept it if given in the form and manner hereinafter prescribed.

5. Where sugar is imported into any Customs-port from a bonded warehouse in the United Kingdom, or, being refined sugar, has been imported on payment of duty into the United Kingdom and exported thence without drawback to any Customs-port, the owners shall furnish the Customs Collector with a certificate in Form A.

6. Where refined sugar, having passed through a refinery in the United Kingdom, is imported from the United Kingdom into any Customs-port, the owner shall furnish the Customs Collector with a certificate in Form B.

7. (*1*) In the case of any sugar—

(*a*) which, though nominally imported into the United Kingdom, has merely passed through a port in the United Kingdom in transit to be re-exported thence to any Customs-port in the same or another bottom; or

(*b*) which has been imported into any Customs-port from any country other than the United Kingdom;

the owner shall furnish the Customs Collector with one of the following documents, namely:—

(*i*) where the sugar was produced in the country from which it was exported either to the United Kingdom or direct to India, a certificate by the exporter or shipper in Form C;

(*ii*) where the sugar was produced in a country other than that from which it was exported either to the United Kingdom or direct to India, a certificate by the shipper or exporter in Form D.

(*2*) Where any sugar referred to in sub-rule (*1*) has been exported from a port in any country other than the United Kingdom or any British Possession to the United Kingdom or to any Customs-port, the certificate shall be attested by the British Consular Officer at the port in such country.

(*3*) Where, in any case referred to in sub-rule (*2*), the British Consular Officer so desires, the certificate shall have been approved and communicated to him by a Local Chamber of Commerce.

(*4*) Where in any case referred to in sub-rule (*2*), the sugar is alleged to be the produce of a country which is a party to the Brussels Sugar Convention of 1902, a certificate granted by a duly authorised Customs Officer of that country as to the origin of the sugar shall be accepted as sufficient proof of its origin.

I also undertake to furnish such reports and information concerning my ward as may be called for at any time by the Principal of the college.

Signature of guardian.

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of elementary mathematics.

(2) Careful training in survey work.

(3) Drawing, both free-hand and engineering.

(4) Elements of road-making and the construction of simple buildings.

(5) Workshop practice, with hand tools and machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this school, who must be a Bihari by race.

4. The next session will commence on 5th July 1909.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and mathematics.

(2) Standard VII of the Code of European schools.

(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and mathematics (of about the same standard as the Entrance Examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 6th and 7th July, respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their applications must give the following particulars :—

(*a*) Name, address, and occupation of father or guardian.

(*b*) Race and religion (A domiciled Bengali must produce evidence to show that his father with his family have taken up their residence in Bihar)

(*c*) A certificate of good moral character from last head-master.

(*d*) An attested certificate of age (showing that he is under 20 years of age).

(*e*) A medical certificate showing him to be fit for employment in the public service.

(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

Candidates for Amin class, who have not passed the Middle English or Middle Vernacular examination, will be examined at the school on the 7th July; candidates failing at this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 5th July 1909, unless application for admission is made before 30th June 1909.

10. All candidates for admission to the school should present themselves personally at the school on 5th July.

11. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians whose homes are near enough to enable them to attend the school at the required times. The Principal of the College will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this Part of the "Gazette" cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Sudamdih-Pathardih Link, Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 8 o'clock on Monday, the 7th June 1909, corresponding with the 24th Jaisto 1316 Fusli, at Jharia.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 10 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

NOTICE.

NOTICE is hereby given that, in pursuance of a requisition of twelve qualified subscribers to the U. S. F. P. Fund (resident in England), a special meeting of the subscribers to the Fund will be held in the Town Hall on Saturday, the 12th June 1909, at 3 P.M. to consider the advisability of referring again to the general body of subscribers the revision and amendment of the proviso added to Rule 54 by Circular No. 1 of the 10th April 1907.

Under the above proviso every subscriber's share of surplus at the commencement of each year was restricted to an amount not exceeding his registered annual subscription, any surplus in excess of this limit being held over for addition to the surplus to be distributed in the following year, instead of being available for refund to the subscriber concerned in cash or for enhancement of the pension assured.

The requisitionists propose that the above proviso be repealed in view to a reversion to the practice of treating excess surplus as available for refund in cash or for enhancement of the pension assured.

Subscribers who cannot attend the above meeting have the right to vote by proxy; the votes to be valid should be stamped with a one-anna stamp and registered in this office not later than the 9th June 1909.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.
